Discusses the vulnerability of the frail elderly in California at the mercy of untrained, unreliable and even abusive care givers who are largely unmonitored by either the State or the counties.

The bush bachelor is back! Finally returning to the dilapidated family ranch Clay Cunningham once called home, he intends to restore it to its former glory... and to settle down and find himself a wife. Local girl Caroline McNevin is as fragile and innocent as Clay is proud and rugged. Yet there is something in her vulnerability that touches Clay. He wants her as his bride, but Caroline cannot be his--unless she can find the courage to escape from her past...

Jaroslav Morawski offers a practicable and theoretically well-founded solution to the problems encountered when investing in illiquid assets and develops a model of the liquidation process for this category of investments. The result is a coherent investment decision framework designed specifically for private real estate but applicable also to other illiquid assets.

Descriptors: information retrieval systems, pumping tests, Theis equation.

The aim of this book is to make the journey towards health and happiness easier and fun. It has been proved that negative thinking can damage a person's health and it affects people by dragging them down mentally, emotionally and physically. The cure proposed is to focus on positive thoughts and spend less time thinking negatively and to enjoy each moment. The aim of this book is to make the journey towards health and happiness easier and fun.
