This volume reviews sources of tension and their resolution in a number of cases that may be considered paradigmatic and which include nomads and Muslims, the Serbs, the Armenians, and the population of Byzantine Italy. The mechanisms of integration or acculturation and their various degrees of success are investigated - as are the responses of different groups - in an effort to present some of the complexities of this society, rich in its diversity and impressive in its unicity.

Color Overheads Included! The Byzantine & Moslem Empires contains 12 full-color transparencies, 12 reproducible pages, and a richly detailed teacher's guide. This volume brings into being the field of Byzantine intellectual history. Shifting focus from the cultural, social, and economic study of Byzantium to the life and evolution of ideas in their context, it provides an authoritative history of intellectual endeavors from Late Antiquity to the fifteenth century. At its heart lie the transmission, transformation, and shifts of Hellenic, Christian, and Byzantine ideas and concepts as exemplified in diverse aspects of intellectual life, from philosophy, theology, and rhetoric to astrology, astronomy, and politics. Case studies introduce the major players in Byzantine intellectual life, and particular emphasis is placed on the reception of ancient thought and its significance for secular as well as religious modes of thinking and acting. New insights are offered regarding controversial, understudied, or promising topics of research, such as philosophy and medical thought in Byzantium, and intellectual exchanges with the Arab world.
