If you plan to begin your course at 1200 C.E., we have a Ways of the World for you! This brand new brief edition combines the thorough examination of significant historical trends, themes, and developments that Strayer/Nelson is known for, but opens with an entirely new "Part One" written specifically for this new course. By first setting the stage of world history at 1200 C.E., Strayer and Nelson provide a thoughtful and insightful commentary that helps students see the big picture of the 1200 start date and models historical thinking and writing throughout. Like the complete fourth edition, this briefer volume is even more focused on the needs of AP® students, with AP® Skills Workshops, DBQ-aligned Working with Evidence features, and more opportunities for students to hone their AP® skills and practice for the exam. Whether you move to a 1200 start date or continue to teach the full course, we have the market-leading book for you!

Ways of the World is one of the most successful and innovative textbooks for world history. The brief-by-design narrative is truly global and focuses on significant historical trends, themes, and developments in world history. Authors Robert W. Strayer, a pioneer in the world history movement with years of classroom experience, along with new co-author Eric W. Nelson, a popular and skilled teacher, provide a thoughtful and insightful synthesis that helps students see the big picture while teaching students to consider the evidence the way historians do.

Kaplan's, 5-Steps, Crash Course and other review books are great resources for the last month before the exam, but the Tamm's Textbook Tools series of student activity books are an accompaniment all year long. This AP\* World History companion is filled with vocab, activities and assignments that follow the Strayer & Nelson Third Edition of Ways of the World for all 23 chapters. The activities in this workbook can be used as regular weekly assignments or reviews. They can be used on short notice if there is a sub, or be assigned as regular homework. All you need is the textbook. Teachers can copy at will, or

use the book as a student consumable. As publishers began putting their content online, a niche for traditional classwork was opened, a void filled by this series. And whether the textbook itself is written in ink or electrons, many students still find it more valuable to write and keep notes for themselves on paper, and portfolios still matter. The activities in this workbook challenge students to apply the concepts, give examples, and diagram every chapter. Find TTT on FB.

Taureans, ever wondered what the Sun-signs tell you about love and life? This unique anthology of poems for love and life relates directly to your Sun-sign, Taurus. If you were born between the 21st of April and the 21st of May, you will relate to many of the themes identified with your sign's characteristics and personality traits. The poems in this collection have been chosen because they reflect a Taurean attitude to life. They appeal to the interests 'ruled' by your sign; the animals, flowers, trees, plants and places celebrated by the poets and associated with the sign of Taurus over three thousand years of traditional astrology. Some have been chosen simply because we believe you will enjoy them, and that they will awaken or re-awaken your love of poetry.
