a Source Book?

Few books serve
wider potential
audiences than
does a source

knowledge, there

Play is one of
humanity's
straightforward
yet deceitful
ideas: though
the notion is
unanimously
agreed upon to
be universal,

used for man and
animal alike,
nothing defines
what all its
manifestations
share, from
childish
playtime to on
stage drama,
from sporting
events to market

Within the

field of work

(Mongolia and

playing holds a

core position:

national

holidays are

called "Games,"

echoing in that

games convey
ethical values
and local

Roberte Hamayon
bases her
analysis of the
playing spectrum
on their
scrutiny.

Starting from

interaction,
emotion and

strategy, this
study heads

towards luck and
belief as well

as the ambiguity
of the relation

to fiction and
reality. It

closes by
indicating two

features of

play: its margin
and its
metaphorical
structure.

Ultimately
revealing its
consistency and
coherence, the
author displays
play as a
modality of
action of its
own. "Playing is
no 'doing' in

sense" once
wrote Johan

Huizinga. Isn't
playing doing
something else,
elsewhere and
otherwise ?
