Two Pulitzer Prize-winning correspondents with The New York Times offer an incisive and timely study of Asia and the diverse ways in which the continent is reshaping world affairs, tracing the origins and impact of the Asian financial crisis, the growing roles of women in the region, and the region's increasing economic, diplomatic, and military influence. 35,000 first printing.

How can we rebuild America so that it is a land with opportunity for all, wherever we live, whatever our complexion? Tightrope outlines a better path for our nation, but first it takes us through an "other America" where wages are low and stagnant, decent jobs are scarce, racial inequity is stark, and Americans die of drug overdoses every seven minutes. Kristof and WuDunn tell the story of America's crisis partly through the lives of friends Kristof grew up with in rural Yamhill, Oregon, a working-class area that was hit badly by the disappearance of blue - collar jobs. Their powerful personal stories and those of others bring to life how we got into this mess and also show a path by which we can right ourselves as a country, redress racial inequity, reduce inequality, and build economic opportunity. Tightrope is a story of hope that is riveting, deeply personal, and impossible to ignore. Book jacket.

Discusses the oppression of women in the developing world, sharing example stories about victims and survivors who are working to raise awareness, counter abuse, and campaign for women's rights.

The Pulitzer Prize-winning authors of Half the Sky present a narrative road map about making a difference in the world,

explaining how to identify effective local and global aid initiatives and participate in successful fundraisers and charities. 200,000 first printing.

From the authors of the #1 New York Times best-selling *Half the Sky*, a unique and essential narrative about making a difference in the world--a road-map to becoming a conscientious global citizen. The basis of a PBS four-hour series.

Pulitzer Prize-winning reporting team, husband and wife Nicholas D. Kristof and Sheryl WuDunn, take us on a journey through Africa and Asia to meet an extraordinary array of exceptional women struggling against terrible circumstances. More girls have been killed in the last fifty years, precisely because they are girls, than men were killed in all the wars of the twentieth century combined. More girls are killed in this routine 'gendercide' in any one decade than people were slaughtered in all the genocides of the twentieth century. In the nineteenth century, the central moral challenge was slavery. In the twentieth, it was totalitarianism. In the twenty-first, Kristof and WuDunn demonstrate, it will be the struggle for gender equality in the developing world. Fierce, moral, pragmatic, full of amazing stories of courage and inspiration, *HALF THE SKY* is essential reading for every global citizen.

From the acclaimed author of *Enduring Patagonia* comes a dazzling tale of aerial adventure set against the roiling backdrop of war in Asia. The incredible real-life saga of the flying band of brothers who opened the skies over China in the years leading up to World War II—and boldly safeguarded them during that conflict—*China's Wings* is one of the most

exhilarating untold chapters in the annals of flight. At the center of the maelstrom is the book's courtly, laconic protagonist, American aviation executive William Langhorne Bond. In search of adventure, he arrives in Nationalist China in 1931, charged with turning around the turbulent nation's flagging airline business, the China National Aviation Corporation (CNAC). The mission will take him to the wild and lawless frontiers of commercial aviation: into cockpits with daredevil pilots flying—sometimes literally—on a wing and a prayer; into the dangerous maze of Chinese politics, where scheming warlords and volatile military officers jockey for advantage; and into the boardrooms, backrooms, and corridors of power inhabited by such outsized figures as Generalissimo and Madame Chiang Kai-shek; President Franklin Delano Roosevelt; foreign minister T. V. Soong; Generals Arnold, Stilwell, and Marshall; and legendary Pan American Airways founder Juan Trippe. With the outbreak of full-scale war in 1941, Bond and CNAC are transformed from uneasy spectators to active participants in the struggle against Axis imperialism. Drawing on meticulous research, primary sources, and extensive personal interviews with participants, Gregory Crouch offers harrowing accounts of brutal bombing runs and heroic evacuations, as the fight to keep one airline flying becomes part of the larger struggle for China's survival. He plunges us into a world of perilous night flights, emergency water landings, and the constant threat of predatory Japanese warplanes. When Japanese forces capture Burma and blockade China's only overland supply route, Bond and his pilots must battle shortages of airplanes, personnel, and spare parts to airlift supplies over an untried five-hundred-mile-long aerial gauntlet high above the Himalayas—the infamous “Hump”—pioneering one of the most celebrated endeavors in aviation history. A hero's-eye view of history in the grand tradition of Lynne Olson's *Citizens of*

London, China's Wings takes readers on a mesmerizing journey to a time and place that reshaped the modern world.

NEW YORK TIMES BESTSELLER • In this unforgettable memoir, Ashley Judd describes her odyssey, as a lost child attains international prominence as a fiercely dedicated advocate. In 2002, award-winning film and stage actor Ashley Judd found her true calling: as a humanitarian and voice for those suffering in neglected parts of the world. After her first trip to the notorious brothels, slums, and hospices of southeast Asia, Ashley knew immediately that she wanted to advocate on behalf of the vulnerable. During her travels, Ashley started to write diaries that detailed extraordinary stories of survival and resilience. But along the way, she realized that she was struggling with her own emotional pain, stemming from childhood abandonment and abuse. Seeking in-patient treatment in 2006 for the grief that had nearly killed her, Ashley found not only her own recovery and an enriched faith but the spiritual tools that energized and advanced her feminist social justice work. Her story ranges from anger to forgiveness, isolation to interdependence, depression to activism. In telling it, she resoundingly answers the ineffable question about the relationship between healing oneself and service to others. Praise for *All That Is Bitter and Sweet* “Ashley Judd has given us magnetic and searingly honest portrayals of diverse women on screen. Now with the same honesty and magnetism, she brings us her true self on the page. From her childhood to her revolutionary empathy with women and girls living very different lives, her path will inspire readers on journeys of their own.”—Gloria Steinem “Over the last decade I have watched my gifted, brilliant friend grow as an artist, but more importantly, as a wise, deeply empathetic woman. I have read the diaries that are the heart of this memoir since she began traveling the world, fearing for her

safety and sanity, baffled why she chooses these grueling missions. All That Is Bitter and Sweet will be a revelation to readers, exposing Ashley Judd for what I have known for years she is: an amazing woman doing extraordinary work.”—Morgan Freeman “All That Is Bitter and Sweet is all that is enlightening and inspiring. Ashley Judd has composed a memoir that teaches while it entrances and finds hope and faith in the most unlikely places. The book is full of real-life stories that reflect both the compassion of its author and the need for healing in the world.”—Madeleine K. Albright
