A vivid historical account of the social world of Rome as it moved from republic to empire. In 49 B.C., the seven hundred fifth year since the founding of Rome, Julius Caesar crossed a small border river called the Rubicon and plunged Rome into cataclysmic civil war. Tom Holland's entralling account tells the story of Caesar's generation, witness to the twilight of the Republic and its bloody transformation into an empire. From Cicero, Spartacus, and Brutus, to Cleopatra, Virgil, and Augustus, here are some of the most legendary figures in history brought thrillingly to life. Combining verve and freshness with scrupulous scholarship, Rubicon is not only an engrossing history of this pivotal era but a uniquely resonant portrait of a great civilization in all its extremes of self-sacrifice and rivalry, decadence and catastrophe, intrigue, war, and world-shaking ambition.

A portrait, a history and a superb guide book - this beautifully written, informative study captures the seductive beauty and the many-layered past of the Eternal City. From its quasi-mythical origins, through the opulent glory of classical Rome, the decadence and decay of the Middle Ages and the beauty and corruption of the Renaissance, to its time at the heart of Mussolini's fascist Italy, Christopher Hibbert details the turbulent and dramatic history of this extraordinary place.
