The Federal Trade Commission receives more complaints about rogue debt collecting than about any activity besides identity theft. Dramatically and entertainingly, Bad Paper reveals why. It tells the story of Aaron Siegel, a former banking executive, and Brandon Wilson, a former armed robber, who become partners and go in quest of "paper"—the uncollected debts that are sold off by banks for pennies on the dollar. As Aaron and Brandon learn, the world of consumer debt collection is an unregulated shadowland where operators often make unwarranted threats and even collect debts that are not theirs. Introducing an unforgettable cast of strivers and rogues, Jake Halpern chronicles their lives as they manage high-pressure call centers, hunt for paper in Las Vegas casinos, and meet in parked cars to sell the social security numbers and account information of unsuspecting consumers. He also tracks a "package" of debt that is stolen by unscrupulous collectors, leading to a dramatic showdown with guns in a Buffalo corner store. Along the way, he reveals the human cost of a system that compounds the troubles of hardworking Americans and permits banks to ignore their former customers. The result is a vital exposé that is also a bravura feat of storytelling.

Life in our times can be dangerous. So many people struggle to make ends meet. Providing for the modern family is expensive and getting more costly each year. Something has to give. Michael Wright works hard to bring home a paycheck. His daughter is sick with a terminal illness. The only way to save her life is to pay for an expensive, experimental surgery. But his rainy day fund is empty. The credit cards are maxed out. And so is the home equity line. His only remaining option is to take out yet another loan. A new loan with a steep cost. Beyond interest rates. A loan with an addendum of death. Michael's story is a cautionary tale. And it applies to all of us. Pay Up and Die is the first novel in the Debt Collector series by Chuck Buda. It is approximately 52,000 words and contains adult language, scenes of horror and a cliffhanger ending. Reader discretion is heavily advised.

From the Award-Winning Author of The Hole, a Slow-Burning Thriller about Vengeance and Debts We Accumulate, in Life, in Death The Law of Lines follows the parallel stories of two young women whose lives are upended by sudden loss. When Se-oh, a recluse still living with her father, returns from an errand to find their house in flames, wrecked by a gas explosion, she is forced back into the world she had tried to escape. The detective investigating the incident tells her that her father caused the explosion to kill himself because of overwhelming debt she knew nothing about, but Se-oh suspects foul play by an aggressive debt collector and sets out on her own investigation, seeking vengeance. Ki-jeong, a beleaguered high school teacher, receives a phone call from the police saying that the body of her younger half-sister has just been found. Her sister was a college student she had grown distant from. Though her death, by drowning, is considered a suicide by the police, that doesn't satisfy Ki-jeong, and she goes to her sister's university to find out what happened. Her sister's cell phone reveals a thicket of lies and links to a company that lures students into a virtual pyramid scheme, preying on them and their relationships. One of the contacts in the call log is Se-oh. Like Hye-young Pyun's Shirley Jackson Award-winning novel The Hole, The Law of Lines an immersive thriller that explores the edges of criminality in ordinary lives, the unseen forces that shape us, and grief and debt.
