This edition features reliable, accessible translations; useful editorial materials; and a straightforward presentation of the Objections and Replies, including the objections from Caterus, Arnauld, and Hobbes, accompanied by Descartes' replies, in their entirety. The letter serving as a reply to Gassendi--in which several of Descartes' associates present Gassendi's best arguments and Descartes' replies--conveys the highlights and important issues of their notoriously extended exchange. Roger Ariew's illuminating Introduction discusses the Meditations and the intellectual environment surrounding its reception.

in North American college classrooms, Donald A. Cress's translation from the French of the *Â Adam and TanneryÂ* critical edition is prized for its accuracy, elegance, and economy. The translation featured in the Third Edition has been thoroughly revised from the 1979 First Edition and includes pages references to the critical edition for ease of comparison.

A superb text for teaching the philosophy of Descartes, this volume includes all his major works in their entirety, important selections from his lesser known writings, and key selections from his philosophical correspondence. The result is an anthology that enables the reader to understand the development of Descartes's thought over his lifetime. Includes a biographical Introduction,

Many other matters respecting the attributes of God and my own nature or mind remain for consideration; but I shall possibly on another occasion resume the investigation of these. Now (after first noting what must be done or avoided, in order to arrive at a knowledge of the truth) my principal task is to endeavour to emerge from the state of doubt into which I have these last days fallen, and to see whether nothing certain can be known regarding material things.

This is an updated edition of John Cottingham's acclaimed translation of Descartes's philosophical masterpiece, including an abridgement of Descartes's Objections and Replies.

Meditations on First Philosophy, in which the existence of God and the immortality of the soul are demonstrated is a philosophical treatise by René Descartes first published in Latin in 1641. The French translation was published in 1647 as *Méditations*

An anthology of works covering the radical philosophical movement dating from Descartes to Leibniz. As much as possible, texts are presented whole, with associated texts by Bacon, Galileo, Pascal, Hobbes, Malebranche, and Newton rounding out the view of major works including Descartes's *Meditations*, Spinoza's *Ethics*, and Leibniz's *Monadology*. Suitable for a one-semester or quarter course covering the Rationalists, the readings are mostly drawn from the
