What happens if I drop an ant? What books are bad for you? What percentage of the world's water is contained in a cow? The Oxbridge undergraduate interviews are infamous for their unique ways of assessing candidates, and from these peculiar enquiries, professors can tell just how smart you really are. John Farndon has collected together 75 of the most intriguing questions taken from actual admission interviews and gives full answers to each, taking the reader through the fascinating histories, philosophies, sciences and arts that underlie each problem. This is a book for everyone who likes to think they're clever, or who thinks they'd like to be clever. And cleverness is not just knowing stuff, it's how laterally, deeply and interestingly you can bend your brain. Guesstimating the population of Croydon, for example, opens a chain of thought from which you can predict the strength of a nuclear bomb ...and that's just the start of it.

contributions by Nassim Nicholas Taleb, Richard Dawkins, Brian Eno, Steven Pinker, and more. Featuring a foreword by New York Times columnist David Brooks and edited by John Brockman, *This Will Make You Smarter* presents some of the best wisdom from today's leading thinkers—to make better thinkers out of the leaders of tomorrow.

A fun and informative guide to some of the more obscure, curious and tricky words in the English language.

A revelatory and timely look at how technology boosts our cognitive abilities—making us smarter, more productive, and more creative than ever. It's undeniable—technology is changing the way we think. But is it for the better? Amid a chorus of doomsayers, Clive Thompson

delivers a resounding “ yes. ” In *Smarter Than You Think*, Thompson shows that every technological innovation—from the written word to the printing press to the telegraph—has provoked the very same anxieties that plague us today. We panic that life will never be the same, that our attentions are eroding, that culture is being trivialized. But, as in the past, we adapt—learning to use the new and retaining what is good of the old. *Smarter Than You Think* embraces and extols this transformation, presenting an exciting vision of the present and the future.

"Leadership and change experts Rob Goffee and Gareth Jones call these invaluable individuals 'clevers'. They can be brilliant, difficult - and sometimes even dangerous. Your organization's competitiveness depends on how well you lead them, but traditional leadership

strategies won't be effective. In *Clever*, Goffee and Jones outline a set of unconventional guidelines for setting up your clevers - and your organization - for success. Based on extensive research inside international organizations in a wide range of industries, the authors identify common traits clevers share and decode the dynamics of clever teams. Through vivid real-world stories, they reveal the secrets to getting the most from clevers."--BOOK JACKET.
