Afterall, people who do nothing wouldn't do enough to leave a history behind (that follows, doesn't it?) Well, Lutz surprised me. People who do nothing, or at the least strive to not work, are quite an interesting crew. I ran into a lot of famous people I had never thought of as loafers before: such as Ben Franklin and Samuel Johnson.

Parmenides. One of the earliest Western philosophers to consider nothing as a concept was Parmenides (5th century BC), who was a Greek philosopher of the monist school. He argued that "nothing" cannot exist by the following line of reasoning: To speak of a thing, one has to speak of a thing that exists.

Nothing - Wikipedia

Doing nothing gives us the energy to do something. The thought of doing nothing can be scary. It was for me. When I was focused on doing it all, I rarely took time to do nothing. I ran at an unsustainable pace, multi-tasking my way through the day, and enjoying or being present for very little of it.

pulpits, politicians, and pedagogues ring with exhortations of the value of work, and the slackers answer with a strenuous call of their own: "To do nothing," as Oscar Wilde said, "is the most difficult thing in the world." From Benjamin Franklin's "air baths" to Jack Kerouac's "dharma bums," Generation-X slackers, and beyond, anti-work-ethic proponents have held a central place in modern culture. Moving with verve and wit through a series of fascinating case studies that illuminate the changing place of leisure in the American republic, *Doing Nothing* revises the way we understand slackers and work itself.

In this insightful reflection on 'doing nothing', the authors take us on a tour of what is happening when, to all appearances, absolutely nothing is happening. The book leads us to rethink

“This book is so important and could truly save lives.”—Elizabeth Gilbert “A clarion call to work smarter [and] accomplish more by doing less.”—Adam Grant We work feverishly to make ourselves happy. So why are we so miserable? Despite our constant search for new ways to optimize our bodies and minds for peak performance, human beings are working more instead of less, living harder not smarter, and becoming more lonely and anxious. We strive for the absolute best in every aspect of our lives, ignoring what we do well naturally and reaching for a bar that keeps rising higher and higher. Why do we measure our time in terms of efficiency instead of meaning? Why can't

we just take a break? In *Do Nothing, Learn for Learners? In Do Nothing*, award-winning journalist Celeste Headlee illuminates a new path ahead, seeking to institute a global shift in our thinking so we can stop sabotaging our well-being, put work aside, and start living instead of doing. As it turns out, we're searching for external solutions to an internal problem. We won't find what we're searching for in punishing diets, productivity apps, or the latest self-improvement schemes. Yet all is not lost—we just need to learn how to take time for ourselves, without agenda or profit, and redefine what is truly worthwhile. Pulling together threads from history, neuroscience, social science, and even paleontology, Headlee examines long-held assumptions about time use, idleness, hard work, and even our ultimate goals. Her research reveals that the habits we cling to are doing us harm; they developed recently in human history, which means

they are habits that can, and must, be broken. It's time to reverse the trend that's making us all sadder, sicker, and less productive, and return to a way of life that allows us to thrive.

After the American presidential election of 2016, Jenny Odell felt so overstimulated and disoriented by information, misinformation, and the expressions of others, that reality itself seemed to slip away. *How To Do Nothing* is her action plan for resistance. Drawing on the ethos of tech culture, a background in the arts, and personal storytelling, Jenny Odell makes a powerful argument for refusal: refusal to believe that our lives are instruments to be optimised. She argues that nothing can be quite so radical as doing... nothing.

“The best thing about nixsen is the absence of a goal. It doesn’t serve a purpose, but it’s wonderful.” Don’t you think it’s time for a break? Plagued—as we are!—by nonstop pings and notifications, we have lost the knack of zoning out. Kicking back. Slacking off. Even when pandemic-induced lockdowns forcibly cleared our calendars, many who thought I’m free! filled their days with Netflix and doomscrolling. How can we reclaim our free time (planned or not) to truly rest and reset? The Dutch have it figured out: with nixsen. Perhaps their best-kept lifestyle secret, nixsen is the art of doing, well, nothing. It’s the opposite of productivity, and it’s incredibly good for your . . .

MIND—it makes you calmer. **BODY**—it offers rest on hectic days.

CREATIVITY—it clears a space for brilliant ideas. **WALLET**—it’s free! If

Andrew Smart wants you to sit and do nothing much more often – and he has the science to explain why. At every turn we're pushed to do more, faster and more efficiently: that drumbeat resounds throughout our wage-slave society. Multitasking is not only a virtue, it's a necessity. Books such as *Getting Things Done*, *The One Minute Manager*, and *The 7 Habits of Highly Effective People* regularly top the bestseller lists, and have spawned a considerable industry. But Andrew Smart argues that slackers may have the last laugh. The latest neuroscience shows that the “culture of effectiveness” is not only ineffective, it can be harmful to your well-being. He makes a compelling case – backed by science – that filling life with activity at

work and at home actually hurts your brain. A survivor of corporate-mandated “Six Sigma” training to improve efficiency, Smart has channeled a self-described “loathing” of the time-management industry into a witty, informative and wide-ranging book that draws on the most recent research into brain power. Use it to explain to bosses, family, and friends why you need to relax – right now.

Following years spent working in Hong Kong, the writer gives away all his belongings and sets about on a series of overland journeys - mostly train, bus and boat rides - across Asia, Europe and down the Americas. The intention was to travel slowly, avoid flying where possible - and to eventually reach land's end, in Ushuaia, located at the southernmost tip of Argentina. The year-long journey takes

him to more than thirty countries, across 60,000 km; a distance equivalent to circumventing the globe one and a half times. This part travelogue, part collection of essays, is a reflection of the places, the lessons, the foods, the stories, and most of all, the people he encounters along the way. From delving into the economics of free walking tours, to receiving a marriage proposal on the Trans-Siberian Railways, to his attempts at tracking down the "world's poorest president", and many other chance encounters, he comes to realize that "the year of doing nothing" was anything but that.

Relaxation simply explained. With simple procedures of how to be relaxed, stay relaxed, and be productive, virtuous, and happy.
