Any successful business has to keep an ear to the ground and remain one step ahead of competitors. Savvy professionals recognize an expanding market and develop the products and services to tap into it. For the aesthetician, that expanding market segment is the multi-ethnic clientele and the tool to help achieve success in this segment is Milady's Aesthetician Series: Treating Diverse Pigmentation. Building a successful career in aesthetics hinges on the ability to identify and treat the skin concerns of this diverse population. Treating Diverse Pigmentation teaches treatments for skin of color that include: the causes of aging and how it affects each race's unique facial anatomy; a guide through several different skin analysis classification systems; review studies analyzing the racial differences in the anatomy, physiology, and histology of pigmented skin; and case-by-case studies that help the reader recognize skin diseases and disorders common to people of color. The text was created for licensed aestheticians and other professionals working in skincare, including RNs and dermatologists, as well as students. Considering that the majority of the world's population is ethnically diverse, the aesthetic professional with an eye on the future will not hesitate to take advantage of Treating Diverse Pigmentation. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

This full-color and amply illustrated book is written for film, television, and theatre makeup artists who need to know the basics on how to accomplish flawless makeup applications. It begins with fundamental practices and continues through more complex techniques usually known only by Hollywood makeup artists. Written by two expert authors who have experience doing makeup for television, commercials, and blockbuster films, readers will learn about beauty, time periods, black and white film, as well as cutting edge techniques such as air brushing makeup for computer-generated movies, and makeup effects. High definition (HD) technology has revolutionized the techniques needed by makeup artists--you need to know more, have more talent, and be more detailed than ever before. Because HD emphasizes every detail on screen, it's essential for makeup artists to know how to achieve a desired "look" that fits the director's requirements. This book will
