This book covers introductory Microsoft Word, Excel, Access, and PowerPoint, with an additional Windows 10 chapter. Beyond point-and-click The goal of the Exploring series is to move students beyond the point-and-click, to understanding the why and how behind each skill. And because so much learning takes place outside of the classroom, this series provides learning tools that students can access anywhere, anytime. Students go to college now with a different set of skills than they did years ago. With this in mind, the Exploring series seeks to move students beyond the basics of the software at a faster pace, without sacrificing coverage of the fundamental skills that everyone needs to know. Also available with MyITLab MyITLab® is an online homework, tutorial, and assessment program designed for Information Technology (IT) courses, which engages students and improves results. HTML5 Simulation exercises and Live-in-Application Grader projects come with the convenience of auto-grading and instant feedback, helping students learn more quickly and effectively. Digital badges lets students showcase their Microsoft Office or Computer Concepts competencies, keeping them motivated and focused on their future careers. MyITLab builds the critical skills needed for college and career success. Note: You are purchasing a standalone product; MyITLab does not come packaged with this content. Students, if interested in purchasing this title with MyITLab, ask your instructor for the correct package ISBN and Course ID. Instructors, contact your Pearson representative for more information.

Personalize learning with MyLab By combining trusted author content with digital tools and a flexible platform, MyLab(TM) personalizes the learning experience and improves results for each student. You are purchasing an access card only. Before purchasing, check with your instructor to confirm the correct ISBN. Several versions of the MyLab(TM) and Mastering(TM) platforms exist for each title, and registrations are not transferable. To register for and use MyLab or Mastering, you may also need a Course ID, which your instructor will provide. If purchasing or renting from companies other than Pearson, the access codes for the MyLab platform may not be included, may be incorrect, or may be previously redeemed. Check with the seller before completing your purchase.

ALERT: Before you purchase, check with your instructor or review your course syllabus to ensure that you select the correct ISBN. Several versions of Pearson's MyLab & Mastering products exist for each title, including customized versions for individual schools, and registrations are not transferable. In addition, you may need a CourseID, provided by your instructor, to register for and use Pearson's MyLab & Mastering products. Packages Access codes for Pearson's MyLab & Mastering products may not be included when purchasing or renting from companies other than Pearson; check with the seller before completing your purchase. Used or rental books If you rent or purchase a used book with an access code, the access code may have been redeemed previously and you may have to purchase a new access code. Access codes Access codes that are purchased from sellers other than Pearson carry a higher risk of being either the wrong ISBN or a previously redeemed code. Check with the seller prior to purchase. --

This three-chapter book provides an overview of VBA and then a full chapter each on VBA in Excel and VBA in Access. It is an ideal complement to the Excel or Access Comprehensive textbook for those looking for more VBA coverage. Beyond point-and-click The goal of the Exploring series is to move students beyond the point-and-click, to understanding the why and how behind each skill. And because so much learning takes place outside of the classroom, this series provides learning tools that students can access anywhere, anytime. Students go to college now with a different set of skills than they did years ago. With this in mind, the Exploring series seeks to move students beyond the basics of the software at a faster pace, without sacrificing coverage of the fundamental skills that everyone needs to know. Also available with MyITLab MyITLab® is an online homework, tutorial, and assessment program designed for Information Technology (IT) courses, which engages students and improves results. This is the eBook of the printed book and may not include any media, website access codes, or print supplements that may come packaged with the bound book. GO! with Office 2016 Getting Started is an Introductory text that offers a chapter on core Office 2016 features, and then one chapter for each of the four primary applications that introduces students to the basic features of each. Using the scenario-based instructional projects students learn the basics and then apply them through mastery, problem-solving, and critical thinking projects. In today's fast-moving, mobile environment, the GO! with Office 2016 series focuses on the job skills needed to succeed in the workforce. With job-related projects that put Microsoft Office® into context, students learn the how and why at the moment they need to know, all in the appropriate Microsoft procedural syntax. For Office 2016, the hallmark guided-practice to skill-mastery pathway is better than ever. Students have many opportunities to work live in Microsoft office to apply the skills they've learned. In addition, these learning objectives are presented in project-based scenarios that prompt students to prove mastery in the context of real-world application. NOTE: This is the standalone book(spiral bound), if you want the book/access card order the ISBN below; 0134582152 / 9780134582153 GO! with Microsoft Office 2016 Getting Started & MyITLab with Pearson eText -- Access Card -- for GO! 2016 with Technology In Action Package Package consists of: 0134444957 / 9780134444956 MyITLab with Pearson eText -- Access Card -- for GO! 2016 with Technology In Action 0134497066 / 9780134497068 GO! with Microsoft Office 2016 Getting Started **ALERT:** Before you purchase, check with your instructor or review your course syllabus to ensure that you select the correct ISBN.
