What was a book in early modern England? By combining book history, bibliography and literary criticism, *Material Texts in Early Modern England* explores how sixteenth- and seventeenth-century books were stranger, richer things than scholars have imagined. This book highlights and explores the paradoxes that characterise contemporary Pakistan from the simultaneous democratization and Islamization of civil society to the schizophrenic US-Pakistan relationship. The central theme of the book looks at Pakistan's stability paradox. Commentators and analysts have over recent years often suggested that Pakistan was on the verge of state 'failure' or collapse resulting from a myriad of dilemmas. The Black Death is the name most commonly given to the pandemic of bubonic plague that ravaged the medieval world in the late 1340s. He describes contemporary responses to the plague and makes clear how helpless the medicine of the day was in the face of it. He
