The man whose life she once saved. The man she abandoned. Since Evelyn left, Mac made his mark as both a pirate and a pilot. But his true allegiance isn ' t known. So when he asks Evie for help with a wounded woman onboard, he tells Evie that the woman is his wife--even if his feelings for Evie have never waned... As the days pass, however, the unease between Evie and Mac gives way to the old comfort they used to have. Love, adventure and a steaming good time. As the French army leader ' s bastard son, Cornelius Stevens enjoys a great deal of latitude. But when he saves an enemy soldier using clockwork parts, he ' s well aware he risks hanging for treason. That doesn ' t worry him half as much, however, as the realization he ' s falling for his patient. Johann Berger never expected to survive his regiment ' s suicide attack on Calais, much less wake up with mechanical parts. To avoid discovery, he ' s forced to hide in plain sight as Cornelius ' s lover—a role Johann finds himself taking to surprisingly well. When a threat is made on Cornelius ' s life, Johann learns the secret of the device implanted in his chest—a mythical weapon both warring countries would kill to obtain. Caught up in a political frenzy, in league with pirates, dodging rogue spies, mobsters and princesses with deadly parasols, Cornelius and Johann have no time to contemplate how they ended up in this mess. All they know is, the only way out is together—or not at all.

Included together for the first time is David Lee Sumner's three Clockwork Legion books: Owl Dance, Lightning Wolves, and the Brazen Shark. Owl Dance Owl Dance is a Weird Western steampunk novel. The year is 1876. Sheriff Ramon Morales of Socorro, New Mexico, meets a beguiling woman named Fatemeh Karimi, who is looking to make a new start after escaping the oppression of her homeland. When an ancient life form called Legion comes to Earth, they are pulled into a series of events that will change the history of the world as we know it. In their journeys, Ramon and Fatemeh encounter mad inventors, dangerous outlaws and pirates. Their resources are Ramon's fast draw and Fatemeh's uncanny ability to communicate with owls. The question is, will that be enough to save them when airships from Czarist Russia invade the United States? Lightning Wolves It's 1877 and Russians forces occupy the Pacific Northwest. They are advancing into California. New weapons have proven ineffective or dangerously unstable. The one man who can help has disappeared into Apache Country, hunting ghosts. A healer and a former sheriff lead a band into the heart of the invasion to determine what makes the Russian forces so unstoppable while a young inventor attempts to unleash the power of the lightning wolves. The Brazen Shark Pirate captain, inventor, and entrepreneur Onofre Cisneros sweeps his friends Fatemeh and Ramon Morales off to Hawaii for their honeymoon. Once there, a British agent makes Cisneros an offer he can't refuse and the captain must travel to Japan. Wanting to see more of the world, Ramon and Fatemeh ask to accompany the captain only to find themselves embroiled in a plot by samurai who steal a Russian airship, hoping to overthrow the Japanese emperor. The grand adventure continues in George Mann's Newbury & Hobbes steampunk mystery series, as a Victorian special agent races across a continent to save his beloved's life on board The Revenant Express. Sir Maurice Newbury is bereft as his trusty assistant Veronica Hobbes lies dying with a wounded heart. Newbury and Veronica's sister Amelia must take a sleeper train across Europe to St. Petersburg to claim a clockwork heart that Newbury has commissioned from Faberge to save Veronica from a life trapped in limbo. No sooner do they take off than sinister goings-on start to plague the train, and it is discovered that an old villain, thought dead, is also on board and seeking revenge. Can Newbury and Amelia defeat him and get the clockwork organ back to the Fixer in time to save Veronica? And can they do so without Newbury going so far into the dark side of occult magic that he can never return? Meanwhile, Sir Charles Bainbridge is the only one of their team left in London to struggle with a case involving a series of horrific crimes. Someone is kidnapping prominent men and infecting them with the Revenant plague, leaving them chained in various locations around the city. But why? It's a rousing chase to save both London and Veronica. Will these brave detectives be up to the task?
