Why is it so hard to make lasting changes in our companies, in our communities, and in our own lives? The primary obstacle is a conflict that's built into our brains, say Chip and Dan Heath, authors of the critically acclaimed bestseller *Made to Stick*. Psychologists have discovered that our minds are ruled by two different systems - the rational mind and the emotional mind—that compete for control. The rational mind wants a great beach body; the emotional mind wants that Oreo cookie. The rational mind wants to change something at work; the emotional mind loves the comfort of the existing routine. This tension can doom a change effort - but if it is overcome, change can come quickly. In *Switch*, the Heaths show how everyday people - employees and managers, parents and nurses

- have united both minds and, as a result, achieved dramatic results:

- The lowly medical interns who managed to defeat an entrenched, decades-old medical practice that was endangering patients
- The home-organizing guru who developed a simple technique for overcoming the dread of housekeeping
- The manager who transformed a lackadaisical customer-support team into service zealots by removing a standard tool of customer service

In a compelling, story-driven narrative, the Heaths bring together decades of counterintuitive research in psychology, sociology, and other fields to shed new light on how we can effect transformative change. Switch shows that successful changes follow a pattern, a pattern you can use to make the changes that matter to you, whether your interest is in changing the world or changing your waistline.

How and where to use 500 of the words that make you sound more cultured, worldly, and downright smart. Whoever said sounding smart had to be painful? It's all in how you acquire the "ten-dollar words" of English. Smart Words makes fast and smooth learning of words such as prelapsarian, sedulous, sybaritic and draconian. How? By sticking to ultra-simple definitions, then offering a memorable--and often funny--description of when or why to use the word. A sample sentence shows you how. And the phonetics are a snap. Here's the description of sybaritic, defined as luxurious: "Make that luxurious with a capital S. The word got its start from Sybaris, an ancient Greek city known for being a tad over the top in the pamper-me department." Whether you're a word lover, a fan of quirky reference books, or simply in need of a vocabulary makeover, Smart Words will help you be smart(er) about the words you use and the way you use them.
