In *Honda Motorcycles: The Ultimate Guide*, motorcycle historian Doug Mitchel traces the evolution of the Honda empire through the road bikes that changed the world. &#x000A;&#x000A;From the earliest D-type two-stroke Dream, to the groundbreaking four-cylinder CD750 of the late 1960s, to the modern sport bikes, Mitchel paints a year-by-year picture of Honda's fabulous history. This complete history, along with the must-have year-by-year model information and collector pricing, makes this book THE guide to own.

This book is written for college and university general health education or lifetime fitness and wellness classes. However, nothing about this book is general. This is a learning system that uses interactive, Web-based modules along with a textbook that contains the most current knowledge. Rather than being "just another textbook" with accompanying online modules, this book creates a new paradigm in how content is delivered, and it engages students in a way that no previous textbook or learning system has attempted before. The book contains timely resources and is in a relevant format, providing students with the necessary tools to become more aware and involved with their health and fitness.

*365 Days of Art* is an inspiring journal designed to help readers and budding artists nurture their creativity and explore their feelings through the medium of art. Featuring an activity for every day of the year, from simple tasks like drawing shapes and lines, to more mindful exercises like coloring-in, painting with primary colors, and drawing what you see. With beautiful, vibrant hand-lettering and watercolor illustrations, the book pairs inspiring quotes with supportive prompts and exercises to spark reflection through your drawing, writing, painting and more.

I got into medical school by saying I was black. I lied. Honestly, I am about as black as my sister Mindy Kaling (*The Office* / *The Mindy Project*).Once upon a time, I was an ethically challenged, hard-partying Indian American frat boy enjoying my third year of college. That is until I realized I didn't have the grades or scores to get into medical school. Legitimately. Still, I was determined to be a doctor and discovered that affirmative action provided a loophole that might help. The only problem? I wasn't a minority. So I became one. I shaved my head, trimmed my long Indian eyelashes, and applied as an African American. Not even my frat brothers recognized me. I joined the Organization of Black Students and used my middle name, Jojo. Vijay, the Indian American frat boy, became Jojo, the African American affirmative action applicant.Not everything went as planned. During a med school interview, an African American doctor angrily confronted me for not being black. Cops harassed me. Store clerks accused me of shoplifting. Women were either scared of me or found my bald black dude look sexually mesmerizing. What started as a scam to get into med school turned into a twisted social experiment that taught me

lessons I would never have learned in the classroom. I became a serious contender at some of America's greatest schools, including Harvard, Wash U, UPenn, Case Western, and Columbia. I interviewed at 11 schools while posing as a black man. After all that, I finally got accepted into medical school. Before I finished this book, I stirred a hornet's nest by telling my story. It has been featured in more than 100 media outlets, including CNN, NBC, TIME, FOX, and Huffington Post. Many loved it, but not everyone approved of what I did. My college classmate Tucker Max (I Hope They Serve Beer in Hell) disapproved. My sister Mindy Kaling furiously declared, "This book will bring shame on our family!" I disagree but I'll let you be the judge.

Honda's CB750 was one of the most important bikes of the 1970s, and is considered by many to be the original superbike. Launched in 1969, Honda's first four-cylinder roadster revolutionized the motorcycle market, setting new standards of sophistication, user-friendliness and reliable high performance. The innovative CB750, with its overhead-camshaft engine, five-speed gearbox and disc front brake, changed the face of recreational motorcycling worldwide.

The Complete Idiot's Guide to Motorcycles, Fourth Edition, is the most complete book on motorcycles, covering everything from how to choose and maintain a motorcycle and how to buy appropriate gear, to how to ride safely, and how to make the most out of trips on the open road.

Presents a collection of recipes for each month of the year, with a focus on seasonal ingredients and menus for celebrations and holidays.

Nuanced view into the complexities of aging as a transgender person

Agathokles of Syracuse ruled large areas of Sicily and southern Italy between 317 and 289 BC. In this book, Christopher de Lisle argues that Agathokles was an important player in the Mediterranean world at a key moment in its history. Agathokles' career has important implications for our definition of the Hellenistic world and its relationship to both the western Mediterranean and earlier Greek history. However, he has tended not to feature in studies of the Hellenistic world or of ancient Sicily. In ancient discourse about him, in the coins he issued, in his interactions with the world around him, and in the way he ruled, Agathokles is simultaneously heir to a long tradition and actively engaged in his contemporary world. The failure to place Agathokles in both of these contexts up till now has contributed to the development of an excessively deep separation between the western and eastern Mediterranean and between the Classical and Hellenistic periods. This work - the first book-length study of Agathokles in English in over a century - places him in the context of both the earlier history of Sicily, and the developments in the eastern Mediterranean that mark the start of the Hellenistic era. The volume includes a narrative of his career, studies of his coinage and his representation in literary sources, and a series of explorations of important themes and regions.
