"I am not moving to Iraq to teach." How does a liberal American girl in red suede boots end up teaching English to conservative Muslim Iraqis in headscarves? Gretchen Berg has met the recession: she has eaten cereal for dinner, given up the gym membership, and come face to face with looming unemployment. To cope, she decided to uproot her life and move to the Middle East. She expected to make some good money, pay off some bad debt, and take some photos of camels. She did not expect to feel at home. She did not expect to fall for a student. She did not expect Diet Coke withdrawal. Irreverent, hilarious, and completely relevant, *I Have Iraq in My Shoe* takes a single, broke, fashion-conscious American female who prefers Project Runaway to CNN and tosses her into Iraq in exchange for cash and vacation time. Watch the desert sand fly!

Fashionista Gretchen Berg humorously recounts when, facing possible unemployment, she uprooted her life and moved to Iraq to teach English to conservative Muslims, where eventually she began to feel at home and fell for a student.

Alia takes matters into her own hands when government officials refuse to listen to her concerns about the books in the Baòsrah Central Library.

Charlie 1-26 confronted one of the worst neighborhoods in Baghdad and lost more men than any battalion since Vietnam. Based on "Blood Brothers", the Michael Kelly Award-nominated series that ran in *Army Times*, this is the remarkable story of a courageous military unit that sacrificed their lives to change Adhamiya, Iraq, from a lawless town where insurgents roamed freely, to a secure neighborhood with open storefronts and a safe populace. *Army Times* writer Kelly Kennedy was embedded with Charlie Company in 2007, went on patrol with the soldiers and spent hours in combat support hospitals. During that period, one soldier threw himself on a grenade to save his friends, a well-liked first sergeant shot himself to death in front of his troops, and a platoon staged a mutiny. The men of Charlie 1- 26 would earn at least 95 combat awards, including one soldier who would go home with three Purple Hearts and a lost dream. This is a timeless story of men at war and a heartbreaking account of American sacrifice in Iraq.

An underemployed, skateboarding party animal, Colby Buzzell traded a dead-end future for the army—and ended up as a machine gunner in Iraq. To make sense of the absurd and frightening events surrounding him, he started writing a blog about the war—and how it differed from the government's official version. But as his blog's popularity grew, Buzzell became the embedded reporter the Army couldn't control—despite its often hilarious efforts to do so. The result is an extraordinary narrative, rich with unforgettable scenes: the Iraqi woman crying uncontrollably during a raid on her home; the soldier too afraid to fight; the troops chain-smoking in a guard tower and counting tracer rounds; the first, fierce firefight against the "men in black." Drawing comparisons to everything from Charles Bukowski to *Catch-22*, *My War* depicts a generation caught in a complicated and dangerous world—and marks the debut of a raw, remarkable new voice.

The acclaimed political analyst offers an examination of the arguments for and against war with Iraq, and exposes the alliance between the news media and the Bush administration.

An unbarred account of life in post-occupation Iraq and an assessment of the nation's prospects for the future

An account by a woman National Guard who, incidently, was the sole Asian American woman in the field. A portrayal of her unit's comradeship that evolved in the caldron called Iraq.

An Arab-American journalist looks at the Iraq War from the perspective of ordinary Iraqi citizens confronted by the dislocations, hardships, tragedies, and harsh realities of the conflict.

"The detailed, nuanced, gripping account of that strange and complex journey offered in Robert Draper's *To Start a War: How the Bush Administration Took America Into Iraq* is essential reading--now, especially now . . . Draper's account [is] one for the ages . . . A must-read for all who care about presidential power." --The Washington Post From the author of the New York Times bestseller *Dead Certain* comes the definitive, revelatory reckoning with arguably the most consequential decision in the history of American foreign policy--the decision to invade Iraq. Even now, after more than fifteen years, it is hard to see the invasion of Iraq through the cool, considered gaze of history. For too many people, the damage is still too palpable, and still unfolding. Most of the major players in that decision are still with us, and few of them are not haunted by it, in one way or another. Perhaps it's that combination, the passage of the years and the still unresolved trauma, that explains why so many protagonists opened up so fully for the first time to Robert Draper. Draper's prodigious reporting has yielded scores of consequential new revelations, from the important to the merely absurd. As a whole, the book paints a vivid and indelible picture of a decision-making process that was fatally compromised by a combination of post-9/11 fear and paranoia, rank naïveté, craven groupthink, and a set of actors with idées fixes who gamed the process relentlessly. Everything was believed; nothing was true. The intelligence failure was comprehensive. Draper's fair-mindedness and deep understanding of the principal actors suffuse his account, as does a storytelling genius that is close to sorcery. There are no cheap shots here, which makes the ultimate conclusion all the more damning. In the spirit of Barbara Tuchman's *The Guns of August* and Marc Bloch's *Strange Defeat*, *To Start A War* will stand as the definitive account of a collective process that arrived at evidence that would prove to be not just dubious but entirely false, driven by imagination rather than a quest for truth--evidence that was then used to justify a verdict that led to hundreds of thousands of deaths and a flood tide of chaos in the Middle East that shows no signs of ebbing.
