Thus, when World War I broke out, although all parties made some play with the need to maintain or protect the balance of power (which, of course, they interpreted variously), none of them could argue that governments, or princes, were behaving in the way that one would expect.

At the height of World War II, lizard-like extraterrestrials arrive on Earth determined to conquer the planet, and American, British, German, and Russian forces begin fighting a whole new battle

World War II seethes across the planet. Hostilities spread in ever-widening circles of destruction: Nazi Germany, Soviet Russia, Britain, France, Japan, Italy Africa - the fate of the world hung in the balance. Then the real enemy arrives. Out of the skies comes an invasion force the like of which Earth has never known - and worldwar is truly joined. The invaders are inhuman and they are unstoppable. Their weaponry is overwhelming and their goal is simple: Fleetlord Atvar has arrived to claim Earth for the Empire. 'The wizard of If.' Chicago Sun-Times 'The standard-bearer for alternate history.' USA Today

WORLDWAR: BOOK 4 At the bloody height of World War II, the deadliest enemies in all of human history were forced to put aside their hatreds and unite against an even fiercer foe: a seemingly invincible power bent on world domination. With awesome technology, the aggressors swept across the planet, sowing destruction as Tokyo, Berlin, and Washington, D.C., were A-bombed into submission. Russia, Nazi Germany, Japan and the U.S. were not easily cowed, however. With cunning and incredible daring, they pressed every advantage against the invader's superior strength, and, led by Stalin, began to detonate their own atom bombs in retaliation. City after city explodes in radioactive firestorms, and fears grow as the worldwide resources disappear, will there be any world left for the invaders to conquer, or for the uneasy allies to defend? While Mao Tse-tung wages a desperate guerrilla war and Hitler drives his country toward self-destruction, United States forces frantically try to stop the enemy's push from coast to coast. Yet in this battle to stave off world domination, unless the once-great military powers take the risk of annihilating the human race, they'll risk losing the war. The fatal, final deadline arrives in Harry Turtledove's grand, smashing finale to the Worldwar series, as uneasy allies desperately seek a way out of a no-win, no-survival situation: a way to live free in a world that may soon be bombed into atomic oblivion.

War seethed across the planet. Machines soared through the air, churned through the seas, crawled across the surface, pushing ever forward, carrying death. Earth was engaged in titanic struggle. Germany, Russia, France, China, Japan; the maps were changing day by day. The hostilities spread in ever-widening ripples of destruction: Britain, Italy, Africa...The fate of the world hung in the balance. Then the real enemy came. Out of the dark of night, out of the soft glow of dawn, out of the clear blue sky came an invasion force the likes of which Earth had never known - and worldwar was truly joined. The invaders were inhuman and they were unstoppable. Their technology was far beyond our reach, and their goal was simple. Fleetlord Atvar had arrived to claim Earth for the Empire. Never before had Earth's people been more divided. Never had the need for unity been greater. And grudgingly, inexperly, humanity took up the challenge. In this epic novel of alternate history, Harry Turtledove takes us around the globe. We roll with German panzers; watch the coast of Britain with the RAF; and welcome alien-liberators to the Warsaw ghetto. In tiny planes we skim the vast Russian steppe, and we push the envelope of technology in secret labs at the University of Chicago. Turtledove's saga covers all the Earth, and beyond, as mankind - in all its folly and glory - faces the ultimate threat; and a turning point in history shows us a past that never was and a future that could yet come to be...

NO ONE COULD STOP THEM-- NOT STALIN, NOT TOGO, NOT CHURCHILL, NOT ROOSEVELT . . . The invaders had cut the United States virtually in half at the Mississippi, vaporized Washington, D.C., devastated much of Europe, and held large parts of the Soviet Union under their thumb. But humanity would not give up so easily. The new world allies were ruthless at finding their foe's weaknesses and exploiting them. Whether delivering supplies in tiny biplanes to partisans across the vast steppes of Russia, working furiously to understand the enemy's captured radar in England, or battling house to house on the streets of Chicago, humankind would never give up. Yet no one could say when the hellish inferno of death would stop being a war of conquest and turn into a war of survival--the very survival of the planet. . . . "From the Paperback edition.

A stroke of the pen and history is changed. In 1938, British prime minister Neville Chamberlain, determined to avoid war, signed the Munich Accord, ceding part of Czechoslovakia to Hitler. But the following spring, Hitler snatched the rest of that country, and England, after a fatal act of appeasement, was fighting a war for which it was not prepared. Now, in this thrilling alternate history, another scenario is played out. What if Chamberlain had not signed the accord? In this action-pecked chronicle of the war that might have been, Harry Turtledove uses dozens of points of view to tell the story: from American marines serving in Japanese-occupied China and ragtag volunteers fighting in the Abraham Lincoln Battalion in Spain to an American woman desperately trying to escape Nazi-occupied territory—and witnessing the war from within the belly of the beast. A tale of powerful leaders and ordinary people, at once brilliantly imaginative and hugely entertaining, Hitler ’ s War captures the beginning of a very different World War II—with a very different fate for our world today. BONUS: This edition contains an excerpt from Harry Turtledove's The War that Came Early: West and East.

The purpose of Weinberg's text is to suggest a way in which the dramatic events of World War II may be seen. Weinberg argues that the war must be seen as a whole, and that the presentation of it in discrete segments covering the European and Pacific portions separately distorts reality and obscures important aspects of the war on both sides of the world. In addition, any understanding of the great struggle requires a mental self-liberation from the certain knowledge of its outcome. In desperate struggles millions fought and died, hopeful or fearful--or both--but without awareness of the end.

In this epic novel Harry Turtledove tells the story of an enormous cast of characters: soldiers and generals, washerwomen and scholars, peasants and diplomats. For all the world, highborn and low, is being plunged by world war...into the darkness. When the Duke of Bari suddenly dies, the neighboring nation of Algarve, long seething over its defeat a generation ago in the Six Years' War, sees its chance to bring Bari into the fold...an action which the other countries surrounding Algarve cannot, by treaty, tolerate. As nation after nation declares war, a chain of treaties are invoked, ultimately bringing almost all the Powers of Derlavai into a war of unprecedented destructiveness. For modern magic is deadlier than in ears past. Trained flocks of dragons rain explosive fire down on defenseless cities. Massed infantry race from place to place along a network of ley-lines. Rival powers harness sea leviathans to help sabotage one another's ships. The lighs are going out all across Derlavai, and will not come back on in this lifetime. A chronicle of the American experience during World War I and the unexpected changes that rocked the country in its immediate aftermath—the Red Scare, race riots, women ’ s suffrage, and Prohibition. The Great War ’ s bitter outcome left the experience largely overlooked and forgotten in American history. This timely book is a reexamination of America ’ s first global experience as we commemorate World War I's centennial. The U.S. had steered clear of the European conflagration known as the Great War for more than two years, but President Woodrow Wilson reluctantly led the divided country into the conflict with the goal of making the world " safe for democracy. " The country assumed a global role for the first time and attempted to build the foundations for world peace, only to witness the experience go badly awry and it retreated into isolationism. Though overshadowed by the tens of millions of deaths and catastrophic destruction of World War II, the Great War was the most important war of the twentieth century. It was the first continent-wide conflagration in a century, and it drew much of the world into its fire. By the end of it, four empires and their royal houses had fallen, communism was unleashed, the map of the Middle East was redrawn, and the United States emerged as a global power – only to withdraw from the world ’ s stage. The Great War is often overlooked, especially compared to World War II, which is considered the " last good war. " The United States was disillusioned with what it achieved in the earlier war and withdrew into itself. Americans have tried to forget about it ever since. The Great War in America presents an opportunity to reexamine the country ’ s role on the global stage and the tremendous political and social changes that overtook the nation because of the war.

An anthology of Great War short stories by British writers, both famous and lesser-known authors, men and women, during the war and after its end. These stories are able to illustrate the impact of the Great War on British society and culture and the many modes in which short fiction contributed to the war's literature. The selection covers different periods: the war years themselves, the famous boom years of the late 1920s to the more recent past in which the First World War has received new cultural interest.
