every year. This must change. In Geekonomics, David Rice shows how we can change it. Rice reveals why the software industry is rewarded for carelessness, and how we can revamp the industry's incentives to get the reliability and security we desperately need and deserve. You'll discover why the software industry still has shockingly little accountability—and what we must do to fix that. Brilliantly written, utterly compelling, and thoroughly realistic, Geekonomics is a long-overdue call to arms. Whether you're software user, decision maker, employee, or business owner this book will change your life...or even save it.

Jython is an open source

implementation of the high-level, dynamic, object-oriented scripting language Python seamlessly integrated with the Java platform. The predecessor to Jython, JPython, is certified as 100% Pure Java. Jython is freely available for both commercial and noncommercial use and is distributed with source code. Jython is complementary to Java. The Definitive Guide to Jython, written by the official Jython team leads, covers Jython 2.5 (or 2.5.x)—from the basics to more advanced features. This book begins with a brief introduction to the language and then journeys through Jython's different features and uses. The Definitive Guide to Jython is organized for beginners as well as advanced

an escape from the hustle and bustle of city life. Some may think the city was built around the park, but it is entirely man-made, a tribute to modern architecture and landscaping. And it might not exist today had the people of New York not fought for it for more than 150 years. As early as 1844, there were calls by the poet William Cullen Bryant and other prominent New York residents for a public park in the marshy hinterland just north of the city proper. Bryant and pre-eminent architect and landscape designer Andrew Jackson Downing led the push for land to be put aside before it was entirely swallowed by buildings. With public support they managed to get politicians on both sides to agree to the

idea. In 1856 the city bought most of the land the park now sits on for 5 million dollars. That's about one hundred million dollars in today's money! At the time, the land was mostly vacant scrubland and rocky outcrops. It was also used as a garbage dump. When the city acquired the land, surveyors and police were sent in to clear the area; and this often meant ejecting squatters and their goats or pigs! iMinds will tell you the story behind the place with its innovative travel series, transporting the armchair traveller or getting you in the mood for discover on route to your destination. iMinds brings targeted knowledge to your eReading device with short information segments to whet
