Brazil is at crossroads, emerging slowly from a historic recession that was preceded by a huge economic boom. Reasons for the historic bust following a boom are manifold. Policy mistakes were an important contributory factor, and included the pursuit of countercyclical policies, introduced to deal with the effects of the global financial crisis, beyond the point where they were helpful. More fundamentally, it reflects longstanding structural weaknesses plaguing the economy, that also help explain Brazil's uninspiring growth performance over the past four decades.

This book constitutes the thoroughly refereed proceedings of the 11th International Conference on Financial Cryptography and Data Security, FC 2007, and the co-located 1st International Workshop on Usable Security, USEC 2007, both held in Scarborough, Trinidad/Tobago, in February 2007. The book includes 17 revised full papers, 1 system presentation paper and the transcriptions of 5 panel sessions from FC 2007. The papers, which were carefully reviewed and selected from 85 submissions, are organized in topical sections on Payment Systems, Anonymity, Authentication, Anonymity and Privacy, Cryptography and Commercial Transactions, Financial Transactions and Web Services, and Cryptography. The book concludes with 5 revised full and 5 revised short papers from the USEC 2007 workshop. This workshop brought together an interdisciplinary group of researchers and practitioners to discuss usability problems and deepen the understanding of users' capabilities and motivations in performing security tasks.

Laudato Si 'is Pope Francis' second encyclical which focuses on the theme of the environment. In fact, the Holy Father in his encyclical urges all men and women of good will, the rulers and all the powerful on earth to reflect deeply on the theme of the environment and the care of our planet. This is our common home, we must take care of it and love it - the Holy Father tells us - because its end is also ours.
