Incredible stories from those who thrived in the Wild West. The “mountain men” were the hunters and trappers who fiercely strode the Rocky Mountains in the early to mid-1800s. They braved the elements in search of the skins of beavers and other wild animals, to sell or barter for goods. The lifestyle of the mountain men could be harsh, existing as they did among animals, and spending most of their days and nights living and camping out in the great unexplored wilds of the Rockies. Life outdoors presented many threats, not least among them Native Americans, who were hostile to the mountain men encroaching on the area for their own purposes. For a certain kind of pioneer, this risk and more were outweighed by the benefits of living free, without the restrictions and boundaries of “civilized” settlements. Included in this collection are tales from great writers, including: Washington Irving Stanley Vestal Osborne Russell Francis Parkman Jr. And many more! In *The Adventures of the Mountain Men*, New York Times bestselling author Stephen Brennan has compiled many of the best stories about the mountain men—the most daring exploits, the death-defying chances taken to hunt big game, the clashes with the arrows of Native Americans, and also the moments when the men were struck by the incomparable beauty of the unsullied, majestic Rocky Mountains.

Tall, dark and muscled like a god, Beau Barnett is great with an axe. Every woman in Rockhead Point wants a taste of the mountain man. Including me. Except he doesn't even know my name. I'm just the girl behind the counter filling his coffee, while he grunts and grumbles, barely making eye contact. Then a newcomer with a charming smile and a fancy suit shows up in Rockhead Point, and refuses to take no for an answer when he asks me to dinner. That's when I find out Mr. Mountain Man not only knows my name... he thinks I'm his property.
