Growing up in the beautiful mountains of Berchtesgaden -- just steps from Adolf Hitler's alpine retreat -- Irmgard Hunt had a seemingly happy, simple childhood. In her powerful, illuminating, and sometimes frightening memoir, Hunt recounts a youth lived under an evil but persuasive leader. As she grew older, the harsh reality of war -- and a few brave adults who opposed the Nazi

regime -- aroused in her skepticism of National Socialist ideology and the Nazi propaganda she was taught to believe in. In May 1945, an eleven-year-old Hunt watched American troops occupy Hitler's mountain retreat, signaling the end of the Nazi dictatorship and World War II. As the Nazi crimes began to be accounted for, many Germans tried to deny the truth of what had occurred; Hunt, in contrast, was determined to know and face the facts of her country's criminal past. On Hitler's Mountain is more than a memoir -- it is a portrait of a nation that lost its moral compass. It is a

In life, everyone climbs mountains. Jala A. McKenzie-Burns shares her story, *Climbing Life's Mountains*, which explores the many challenges that faced her from birth. As a

biracial child, she was left in the hospital, then placed into foster care. Her education began from the time she was born through the reactions and events around her. Her education continued with the teachings of the Civil Rights Movement, watching the Civil Rights' marches on television and listening to the I-Have-a-Dream speech on the radio. Her early lessons taught her to stand up for her beliefs and soon paid off. After being adopted by an African-American family, she faced many confrontations from both white and black children. Along the way, she realized she was a female. Through her service in the

U.S. Marine Corps, working in politics, gaining a college education, marrying a woman she loved, and raising their child, she tried to hide her feminine desires, but the pain never stopped at not being able to express who she really was. According to society, she was supposed to live her life as a male. While she participated in many activities to fight her inner conflict, she couldn't force a square peg into a round hole. When she shared her gender conflict with her adoptive mother, her mother kicked her out of her life. In her book, Jala discusses her full transition experience so that she can help

others with their gender-identity conflict. During her transition, she fell into a deep depression. With this illness, she practiced many unhealthy coping mechanisms. During a major portion of her life, she had yearned to find her biological mother. After many attempts, she was finally reunited with her biological mother and sister. Years later, after reconnecting with both her biological and adoptive families, she began to overcome depression. She shares her story of depression, believing that if she can overcome it, so can others. She combines her autobiography and insights about gender

identity transition with interviews from family members, other transgender females, and a psychologist who specializes in Gender Identity Disorder. In the section called "Adoption and Finding My Biological Family," she includes three special interviews. First, her adoptive brother, Derrick, is a highly successful individual who graduated from Princeton University. He shares their experiences of growing up together. Second, Karen, her biological sister, tells of her experience as being one of four siblings who were taken by the state of Georgia. And third, Patricia, the only child out of all

Jala and her siblings share the steps they took to find their biological families. The story explores times of laughter and times of tears, hoping to help others overcome their personal challenges.

In the early 1940s, \$10 bought a bus ticket from Appalachia to a better job and promise of prosperity in the flatlands of northeast Ohio. A mountaineer with a strong back and will to work could find a job within twenty-

four hours of arrival. But the cost of a bus ticket was more than a week's wages in a lumber camp, and the mountaineer paid dearly in loss of kin, culture, homeplace, and freedom. Numerous scholarly works have addressed this migration that brought more than one million mountaineers to Ohio alone. But Mountain People in a Flat Land is the first popular history of Appalachian migration to one community -- Ashtabula County, an industrial center in the fabled "best location in the nation." These migrants share their stories of life in Appalachia before coming north. There are tales of

making moonshine, colorful family members, home remedies harvested from the wild, and life in coal company towns and lumber camps. The mountaineers explain why, despite the beauty of the mountains and the deep kinship roots, they had to leave Appalachia. Stories of their hardships, cultural clashes, assimilation, and ultimate successes in the flatland provide a moving look at an often stereotyped people.
