The nineteen essays cover such topics as fairy stories, juvenile fiction, period criticism, and science fiction, plus the writers E. R. Eddison, H. Rider Haggard, Dorothy Sayers, J. R. R. Tolkien, and Charles Williams. The title essay sets the tone for the bulk of the essays in this volume.

Amazon.com: Customer reviews: On Stories: And Other Essays ...

The Monsters and the Critics, and Other Essays is a collection of J. R. R. Tolkien's scholarly linguistic essays edited by his son Christopher and published posthumously in 1983. All of them were initially delivered as lectures to academics, with the exception of "On Translating Beowulf ", which Christopher Tolkien notes in his foreword is not addressed to an academic audience.

The theme of this collection is the excellence of the Story, especially the kind of story dear to Lewis-fantasy and science fiction, which he fostered in an age dominated by realistic fiction. *On Stories* is a companion volume to Lewis's collected shorter fiction, *The Dark Tower and Other Stories*. Edited and with a Preface by Walter Hooper.

An irresistible collection of favorite writings from an author celebrated for his bravura style and sheer unpredictability Francis Spufford's welcome first volume of collected essays gathers an array of his compelling writings from the 1990s to the present. He makes use of a variety of encounters with particular places, writers, or books to address deeper questions relating to the complicated relationship between story-telling and truth-telling. How must a nonfiction writer imagine facts, vivifying them to bring them to life? How must a novelist create a dependable world of story, within which facts are, in fact, imaginary? And how does a religious faith felt strongly to be true, but not provably so, draw on both kinds of writerly imagination? Ranging freely across topics as diverse as the medieval legends of Cockaigne, the Christian apologetics of C. S. Lewis, and the tomb of Ayatollah Khomeini, Spufford provides both fresh observations and thought-provoking insights. No less does he inspire an irresistible urge to turn the page and read on.

Reflections on literature and science fiction; three stories; and the beginning chapters of a novel. Edited and with a Preface by Walter Hooper.

"Impishly witty and ingeniously irreverent" essays on topics from cell phones to librarians, by the author of *The Name of the Rose* and Foucault's Pendulum (*The Atlantic Monthly*). A cosmopolitan curmudgeon the *Los Angeles Times* called "the Andy Rooney of academia"—known for both nonfiction and novels that have become blockbuster *New York Times* bestsellers—Umberto Eco takes readers on "a delightful romp through the absurdities of modern life" (*Publishers Weekly*) as he journeys around the world and into his own wildly adventurous mind. From the mundane details of getting around on Amtrak or in the back of a cab, to reflections on computer jargon and soccer fans, to more important issues like the effects of mass media and consumer civilization—not to mention the challenges of trying to refrigerate an expensive piece of fish at an English hotel—this renowned writer, semiotician, and philosopher provides "an uncanny combination of the profound and the profane" (*San Francisco Chronicle*). "Eco entertains with his clever reflections and with his unique persona." —*Kirkus Reviews* Translated from the Italian by William Weaver

One of *Book Riot's* "The Best Books We Read in October 2018" "To say this collection is transgressive, provocative, and brilliant is simply to tell you the truth." —Roxane Gay, author of *Hunger* and *Bad Feminist* Smart, humorous, and strikingly original essays by one of "America's most bracing thinkers on race, gender, and capitalism of our time" (Rebecca Traister) In these eight piercing explorations on beauty, media, money, and more, Tressie McMillan Cottom—award-winning professor and acclaimed author of *Lower Ed*—embraces her venerated role as a purveyor of wit, wisdom, and Black Twitter smut about all that is right and much that is wrong with this thing we call society. Ideas and identity fuse effortlessly in this vibrant collection that on bookshelves is just as at home alongside Rebecca Solnit and bell hooks as it is beside Jeff Chang and Janet Mock. It also fills an important void on those very shelves: a modern black American feminist voice waxing poetic on self and society, serving up a healthy portion of clever prose and southern aphorisms as she covers everything from Saturday Night Live, LinkedIn, and BBQ Becky to sexual violence, infant mortality, and Trump rallies. Thick speaks fearlessly to a range of topics and is far more genre-bending than a typical compendium of personal essays. An intrepid intellectual force hailed by the likes of Trevor Noah, Chimamanda Ngozi Adichie, and Oprah, Tressie McMillan Cottom is "among America's most bracing thinkers on race, gender, and capitalism of our time" (Rebecca Traister). This stunning debut collection—in all its intersectional glory—mines for meaning in places many of us miss, and reveals precisely how the political, the social, and the personal are almost always one and the same.

A distinguished collection of essays on language, literature, and philosophy from acclaimed scholar and critic George Steiner *On Difficulty* is as provocative and relevant today as when its essays were first published. Ranging from critical topics such as the understanding of language to the meaning of meaning, inward speech to the relationship between erotic sensibility and linguistic convention, these eight essays posit myriad topics for exploration and dialogue. George Steiner deals with considerations that are simultaneously literary and philosophical, exploring themes of linguistic privacy and the changing technical, physiological, and social statuses of the act of reading.

A fantastical anthology of short fiction, poetry, and commentaries by the author of *The Lord of the Rings* includes "The Adventures of Tom Bombadil," "Farmer Giles of Ham, and the author's intriguing essay on the art of the fairy story and the treatment of fantasy. Reissue.

'Personal inclination made me a historian. Personal encounter with public policy made me an activist.'
