From an Islamic perspective, although the ownership of wealth is with God, humans are gifted with wealth to manage it with the objective of benefiting the human society. Such guidance means that wealth management is a process involving the accumulation, generation, purification, preservation and distribution of wealth, all to be conducted carefully in permissible ways. This book is the first to lay out a coherent framework on how wealth management should be conducted in compliance with guiding principles from edicts of a major world religion.

Offers a practical and theoretical coverage of investments market. This book places emphasis on asset allocation, and offers a treatment of futures, options, and other derivative security markets.

This book is a wide-ranging and timely overview of the contemporary Chinese banking system. It charts the vast changes in Chinese banking from before China's admission to the WTO in 2001 to more recent regulatory reform and developments in the shadow banking sector. The book begins with an economic history of the mono-banking system, and a critical discussion of reforms taken by the government in preparation for China's entry to the WTO. The second part of the book discusses banking regulation and government policy during and after the global financial crisis in 2008-2009 and their impact on banking, including recent developments. Finally, the book concludes an empirical analysis of the impact of banking reforms on a number of important issues, including bank efficiency, capital structure, competition and financial stability, and risk taking behaviour, and a review of the relevance of shadow banking and internet banking.

A practical guide to getting personal investing right Somewhere along the way, something has gone very wrong with the way individuals save and invest. Too often, households are drawn in by promotional suggestions masquerading as impartial investment advice. Consumers get saddled with more risk than they realize. Authors Zvi Bodie and Rachele Taqqu understand the dilemma that today's investors face, and with Risk Less and Prosper they will help you find your financial footing. Written in an accessible style, this practical guide skillfully explains why personal investing is all about you—your goals, your values and your career path. It shows how to understand investment risk and choose the particular blend of risk and safety that is right for you. And it lays out several simple yet powerful ways for small investors to cast a reliable safety net to achieve their financial goals and truly prosper. Coauthors Bodie and Taqqu challenge the myth that all investments require risk, then highlight some important risks that families often disregard when deciding where to put their money. Later, they connect the dots between investment and investor, showing us all how to grasp our own investment risk profiles and how we may use these insights to make more fitting investment choices. Outlines a straightforward way to invest by aligning your investments with your goals and the risk levels you can bear Provides basic investment abc's for readers who are otherwise literate Lays out a simple, actionable plan for achieving your goals Explains the role of risk-free assets and investment insurance in assuring that you reach your most essential goals Contrary to popular belief, investing doesn't have to be complicated. You can build wealth without taking great risks. Risk Less and Prosper will show you how to make investment decisions that will make your financial life less stressful and more profitable.

The market leading undergraduate investments textbook, Essentials of Investments, 8e by Bodie, Kane and Marcus, emphasizes asset allocation while presenting the practical applications of investment theory. The authors have eliminated unnecessary mathematical detail and concentrate on the intuition and insights that will be useful to practitioners throughout their careers as new ideas and challenges emerge from the financial marketplace. The eighth edition has been fully updated to reflect the recent financial crisis and includes a new chapter on Hedge Funds.

This book contains the refereed proceedings of the 2nd Advances in Business Research International Conference (ABRIC2016). Chapters in the book address the theme of Advancing Knowledge, Connecting the World, reflecting on the emerging issues in various business management fields and the interconnections of multiple disciplines for creating knowledge advancement. Papers were carefully reviewed and selected and grouped into four main themes: economic and finance, marketing and communications, management, and information technology in business. The book serves as a helpful resource for students and researchers of business management, especially in understanding issues and cases of business in emerging economies and markets.

This note-taking supplement contains a reduced copy of every image from the Transparency Masters/PowerPoint Presentation Software package. There is room to take notes next to each image, allowing students a more complete and organized method for recording lecture notes.

The book covers 7 topics: 1. Organizational Behavior, Leadership, and Human Resources Management 2. Innovation, Operations and Supply Chain Management 3. Marketing Management 4. Financial Management and Accounting 5. Strategic Management, Entrepreneurship, and Contemporary Issues 6. Green Business 7. Management and Economics Education.

The bond markets are a vital part of the world economy. The fourth edition of Professor Moorad Choudhry's benchmark reference text An Introduction to Bond Markets brings readers up to date with latest developments and market practice, including the impact of the financial crisis and issues of relevance for investors. This book offers a detailed yet accessible look at bond instruments, and is aimed specifically at newcomers to the market or those unfamiliar with modern fixed income products. The author capitalises on his wealth of experience in the fixed income markets to present this concise yet in-depth coverage of bonds and associated derivatives. Topics covered include: Bond pricing and yield Duration and convexity Eurobonds and convertible bonds Structured finance securities Interest-rate derivatives Credit derivatives Relative value trading Related topics such as the money markets and principles of risk management are also introduced as necessary background for students and practitioners. The book is essential reading for all those who require an introduction to the financial markets.
