Experience Days Pro's Spitfire flights bring you as close as possible to an authentic Spitfire aeroplane on the ground and up in the air.

The remarkable Battle of Britain experiences of Spitfire pilot Brian Lane, DFC. Brian Lane was only 23 when he when he wrote his dramatic account of life as a Spitfire pilot during the Battle of Britain in the summer of 1940. Lane was an 'ace' with six enemy 'kills' to his credit and was awarded the DFC for bravery in combat. The text is honest and vibrant, and has the immediacy of a book written close the event, untouched, therefore, by the doubts and debates of later years. Here we can read, exactly what it was like to 'scramble', to shoot down Messerschmitts, Heinkels, Dorniers and Stukas and how it felt to lose comrades every day. Squadron Leader Brian Lane DFC was not only an exceptional fighter pilot but likewise a gifted leader, at all levels. In what was still a hierarchical and class conscious culture, 'Chiefy' Lane was different: he knew everyone under his command by first names, no matter how lowly their rank or status, and in the air he was always unflappable, calmly making the right tactical decision and in the process earning unlimited respect amongst pilots and aircrew. All these years later the survivors still speak of him with an unparalleled affection and respect bordering upon a holy reverence. High drama has never before been so characteristically understated, written, as it was, by the 'Finest of the Few'.

Lane was the author of Spitfire!, originally published in 1942 under the pseudonym B.J. Ellan. The book is a first hand account of his experiences as a front line Spitfire pilot and is one of only a few contemporaneous autobiographical accounts of the life of a Battle of Britain Spitfire pilot.

As a child, Dilip Sarkar was fascinated by the haunting image of an anonymous RAF Spitfire pilot. Taken minutes after landing from a Battle of Britain combat, this was Squadron Leader Brian Lane DFC, the commander of 19 Squadron, based at Fowlmere - and author of the stirring first-hand account *Spitfire! The Experiences of a Fighter Pilot*, published under the pseudonym B.J. Ellan. Deeply moving was the discovery that in 1942 Brian was reported missing after a futile nuisance raid over the Dutch coast. During the mid-1980s, Dilip began researching the life and times of both Brian Lane and 19 Squadron, forging close friendships with many of the unit's surviving Battle of Britain pilots and support staff. This enabled identification of the wartime censor's blanks regarding people and places in Brian's book, and the publication in 1990 of Dilip's first ever book, *Spitfire Squadron: 19 Squadron at War 1939-41*. Nearly thirty years later, sadly all of the survivors are now deceased, but Dilip's close relationship has provided a huge archive of correspondence and interviews in addition to a unique photographic collection. Furthermore, the author, a retired police detective, has thoroughly investigated the life - and death - of Squadron Leader Lane. This completely new *Spitfire Squadron* covers everything we would ever need to know about such a unit during the critical pre and early war period: the social, political, aviation and military history all in one volume - emphasising the human experience involved and the stories of casualties. With an immense photographic collection - many published here for the first time - this book is destined to become a classic. So, strap yourself in, turn gun button to 'fire', and join 19 Squadron's Spitfire pilots during our Darkest and Finest Hours ... the ultimate 'Band of Brothers'?

Spitfire Pilot is the exhilarating and moving memoir of D. M. Crook, an airman in the legendary 609 Squadron - one of the most successful RAF units in the Battle of Britain. Beginning with his fond recollections of his halcyon days in training - acrobatics, night flying and languorous days spent playing sport and nights off visiting Piccadilly Circus - Crook goes on to recount in thrilling detail the dogfights, remarkable victories and tragic losses which formed the daily routine of Britain's heroic aerial defenders in that long summer of 1940. Often hopelessly outnumbered, the men of 609 Squadron in their state-of-the-art Spitfires committed acts of unimaginable bravery against the Messerschmitts and Junkers of Germany's formidable Luftwaffe. Many of Crook's fellow airmen did not make it back alive, and the absence they leave in the close-knit community of the squadron is described with great poignancy. *Spitfire Pilot* offers a unique and personal insight into one of the most critical moments of British history, when a handful of men stood up against the might of the German Air Force in defence of their country. This definitive edition, the first for more than sixty years, includes a new foreword by David Crook's daughter and Air Vice Marshal Sandy Hunter, Honorary Air Commodore of the 609 Squadron. The book also has an introduction by Professor Richard Overy.

A brilliantly vivid Second World War memoir by one of 'the Few' Spitfire fighter pilots. Following the D-Day landings, Battle of Britain hero Tom Neil was assigned as an RAF liaison to an American fighter squadron. As the Allies pushed east, Neil commandeered an abandoned Spitfire as his own personal aeroplane. Erasing any evidence of its provenance and stripping it down to bare metal, it became the RAF's only silver Spitfire. Alongside his US comrades, he took the silver Spitfire into battle until, with the war's end, he was forced to make a difficult decision. Faced with too many questions about the mysterious rogue fighter, he contemplated increasingly desperate measures to offload it, including bailing out mid-Channel. He eventually left the Spitfire at Worthy Down, never to be seen again. *THE SILVER SPITFIRE* is the first-hand, gripping story of Neil's heroic experience as an RAF fighter pilot and his reminiscences with his very own personal Spitfire.

Flight Lieutenant David Moore Crook DFC's original *Spitfire Pilot* ranks among the finest first-hand accounts published during the Second World War, particularly for a Battle of Britain airman. It rightly remains a sought-after classic. A Spitfire pilot during the epic aerial battles of the summer of 1940, 'DMC' became a decorated ace. However, he did not survive the war: his Spitfire inexplicably crashed into the sea off the Scottish coast on 18 December 1944. A married man and father, he remains missing. First published under wartime conditions in 1942, *Spitfire Pilot* was not heavily censored - unlike Squadron Leader Brian Lane DFC's similar first-hand account *Spitfire! The Experiences of a Fighter Pilot*, published the same year. DMC's book was based on his entries in two Stationery Office lined notebooks, hastily scribbled between sorties, and using his pilot's flying log book for reference. In 1990, the renowned Battle of Britain historian Dilip Sarkar traced DMC's widow, Dorothy, who enthusiastically supported the idea of re-publishing *Spitfire Pilot*. She duly uncovered bound copies of DMC's original manuscript, which she passed to Dilip. *The Real Spitfire Pilot* is, therefore, DMC's original, completely uncensored and unedited words, shared here for the first time. It provides a totally authentic window on the past, providing a unique glimpse at the lives - and deaths - of real Spitfire pilots in our Finest Hour. With an introduction and conclusion by Dilip Sarkar, and illustrated with previously unseen photographs, this is destined to become another classic.

This is the story of an exceptional test pilot and RAF and Fleet Air Arm pilot, Jeffrey Quill, who took charge of some of the most important military aircraft of his time. Jeffrey Quill, was commissioned in the RAF in 1931. He joined Vickers Aviation in 1936, and rose to become Chief Test Pilot at Supermarine. Best remembered for his work on the Spitfire, with which his name is inextricably linked, he played a major part in the testing of the prototype and the entire development of the aircraft. Starting with lively descriptions of the Royal Air Force in the mid 1930s, Jeffrey Quill moves on to cover his fascinating test flying experiences where he took charge of some of the most important military aircraft of that time. He flight-tested every variant of the immortal Spitfire, from its experimental, prototype stage in 1936 when he worked with its chief designer, RJ Mitchell, to the end of its production in 1948. Using his first-hand experience of combat conditions fighting with 65 Squadron at the height of the Battle of Britain, Jeffrey Quill helped to turn this elegant flying machine into a deadly fighter aircraft.

This is the true story of Second World War fighter pilot, Richard Hillary. After being shot down in September 1940, Hillary spent several months in hospital, undergoing numerous operations; a member of Archibald McIndoe's 'Guinea Pig Club'. Originally published in 1942, just months before he died in a second crash, *The Last Enemy* recounts the struggles and successes of a young man in the Royal Air Force. Told through Hillary's eyes, this incredible story shows that even in our darkest moments there is a glimmer of enduring hope.
