~~The Divine Center Quotes by Stephen R. Covey~~

The Divine Center by Stephen R. Covey A classic book available for the first time in paperback All of us at some point search for an organizing principle in life, one that is simple without being simplistic, that offers enduring direction.

Outlines a breakthrough approach to conflict resolution and creative problem solving that draws on the techniques of thinkers from a broad range of disciplines to explain how to incorporate diverse viewpoints for win-win solutions.

What has theology to do with economics? They are both sciences of human action, but have traditionally been treated as very separate disciplines. Divine Economy is the first book to address the need for an active dialogue between the two. D. Stephen Long traces three strategies which have been used to bring theology to bear on economic questions: the dominant twentieth-century tradition, of Weber's fact-value distinction; an emergent tradition based on Marxist social analysis; and a residual tradition that draws on an ancient understanding of a functional economy. He concludes that the latter approach shows the greatest promise because it refuses to subordinate theological knowledge to autonomous social-scientific research. Divine Economy will be welcomed by those with an interest in how theology can inform economic debate.

Prophets serve as intermediaries between the human and divine worlds, granting them a special status in history across diverse religions and cultures. For Muslims, the Prophet Muhammad (570–632 CE) represents the culmination of the line of monotheistic prophets, including Abraham, Moses and Jesus. In his own lifetime, Muhammad overcame opposition and brought reforms, firmly establishing a thriving community of believers which would become a major world civilisation. Today, the Prophet's life and actions continue to inspire the Muslims worldwide. The Prophet Muhammad presents an illuminating portrait of Muhammad in his capacity as God's messenger and an exemplary figure to Muslims. Revealing the challenges and triumphs of prophecy, Stephen Burge examines how prophets have inspired faith communities' relationship with the Divine, and one another. In doing so, this engaging account elucidates the enduring influence of prophecy and the profound legacy of the Prophet Muhammad.

A revolutionary guidebook to achieving peace of mind by seeking the roots of human behavior in character and by learning principles rather than just practices. Covey's method is a pathway to wisdom and power.

The idea came from my childhood - I used to dress up as my favorite action-figure and run around the neighborhood pretending I was that toy. I wanted to run with this idea of imagination - a boy with his imagination. However, I had another passion - education. I truly wanted to show young souls how much fun it could be to learn about topics such as History with just a touch of imagination. So I created Billy - a young boy eager to travel not just to different places, but to different time periods. Kids will enjoy flipping each page, seeing the beautiful colors, characters and events that formulated our world. Billy uses his trusty Time Machine to take kids to these places, teaching them everything they need to know. Best part is, the books are interactive, as I have added fun games and trivia in the back of every book, just like I remember ruining the lovely books my mother bought for me, scribbling in them as a young child. With Infinite Travels, you don't need to worry about that. The kids can color and fun as well as learn in the process. To see the animation I've created before Infinte Travels was even an idea yet, please visit this link: <https://vimeo.com/22664441> The overall idea was to have fun with this particular project of SP Productions. We want to make sure every product of ours moves our consumers. Stay tuned for more Infinite Travels issues in the future! *BUY YOUR COPY AND HELP CHILDREN TODAY!*

From legendary character actor Stephen Tobolowsky—who currently appears on The Goldbergs, HBO’s Silicon Valley, and Norman Lear’s new One Day at a Time, author of The Dangerous Animals Club and The Tobolowsky Files podcast—My Adventures with God is a funny, introspective collection about love, catastrophe, and triumph, all told through the lens of his evolving relationship with the mystery that is “God.” As Tobolowsky explains, “It’s hard to believe in nothing. Even cats believe in supertime. As much as we love certainty, we are often shaped by the invisible, the unexplainable—something we call faith. We are inclined to acknowledge the holy. Even if it is only a paper heart we find in an old suitcase.” My Adventures with God is a series of short stories exploring the idea that most people’s lives seem to fit into the template of the Old Testament. We all have powerful creation myths: tales of our childhood and family, our first battles won and lost. It is our Genesis. Then, like in the Book of Exodus, we go into slavery. Rather than building pyramids, we lose ourselves in fear and ambition—in first loves, first jobs, too many dreams mixed with too much beer. We eventually become free, only to wander in the wilderness. At some point we stop and proclaim to the universe who we are. This is our Leviticus moment. We reconcile what we thought we would be with what we have become. We often attempt a mid-course correction. Then, as in the Book of Numbers, we are shaped by mortality as we bear the loss of family and friends. Finally, we retell our stories to our children hoping to make sense of the journey, as Moses did in Deuteronomy. Tobolowsky’s stories tell of a boy growing up in the wilds of Texas, finding and losing love, losing and finding himself—all told through the prism of the Torah and Talmud, mixed with insights from science, and refined through a child’s sense of wonder. My Adventures with God not only shines a light into the life of one of America’s most beloved actors, but also provides a structure to evaluate our own lives and relationship with God.
