La moria grandissima began its terrible journey across the European and Asian continents in 1347, leaving unimaginable devastation in its wake. Five years later, twenty-five million people were dead, felled by the scourge that would come to be called the Black Death. The Great Mortality is the extraordinary epic account of the worst natural disaster in European history -- a drama of courage, cowardice, misery, madness, and sacrifice that brilliantly illuminates humankind's darkest days when an old world ended and a new world was born.

A magisterial account of one of the worst disasters to strike humankind--the Great Irish Potato Famine--conveyed as lyrical narrative history from the acclaimed author of *The Great Mortality*. Deeply researched, compelling in its details, and startling in its conclusions about the appalling decisions behind a tragedy of epic proportions, John Kelly's retelling of the awful story of Ireland's great hunger will resonate today as history that speaks to our own times. It started in 1845 and before it was over more than one million men, women, and children would die and another two million would flee the country. Measured in terms of mortality, the Great Irish Potato Famine was the worst disaster in the nineteenth century--it claimed twice as many lives as the American Civil War. A perfect storm of bacterial infection, political greed, and religious intolerance sparked this catastrophe. But even more extraordinary than its scope were its political underpinnings, and *The Graves Are Walking* provides fresh material and analysis on the role that

Britain's nation-building policies played in exacerbating the devastation by attempting to use the famine to reshape Irish society and character. Religious dogma, anti-relief sentiment, and racial and political ideology combined to result in an almost inconceivable disaster of human suffering. This is ultimately a story of triumph over perceived destiny: for fifty million Americans of Irish heritage, the saga of a broken people fleeing crushing starvation and remaking themselves in a new land is an inspiring story of revival. Based on extensive research and written with novelistic flair, *The Graves Are Walking* draws a portrait that is both intimate and panoramic, that captures the drama of individual lives caught up in an unimaginable tragedy, while imparting a new understanding of the famine's causes and consequences.

A fascinating account of the phenomenon known as the Black Death, this volume offers a wealth of documentary material focused on the initial outbreak of the plague that ravaged the world in the fourteenth century. A comprehensive introduction that provides important background on the origins and spread of the plague is followed by nearly 50 documents organized into topical sections that focus on the origin and spread of the illness; the responses of medical practitioners; the societal and economic impact; religious responses; the flagellant movement and attacks on Jews provoked by the plague; and the artistic response. Each chapter has an introduction that summarizes the issues explored in the documents; headnotes to the documents provide additional background material. The book contains documents from many countries – including Muslim and Byzantine sources – to give students a variety of perspectives on this devastating illness and its consequences. The volume also includes illustrations, a chronology of the Black Death, questions to consider, a selected bibliography, and an index.

The Black Death was the fourteenth century's equivalent of a nuclear war. It wiped out one-third of Europe's population, taking millions of lives. The author draws together the most recent scientific discoveries and historical research to pierce the mist and tell the story of the Black Death as a gripping, intimate narrative.

An equal parts haunting and hilarious deep-dive review of history's most notorious and cold-blooded serial killers, from the creators of the award-winning *Last Podcast on the Left* Since its first show in 2010, *The Last Podcast on the Left* has barreled headlong into all things horror, as hosts Henry Zebrowski, Ben Kissel, and Marcus Parks cover subjects spanning Jeffrey Dahmer, werewolves, Jonestown, and supernatural phenomena. Deeply researched but with a morbidly humorous bent, the podcast has earned a dedicated and aptly cultlike following for its unique take on all things macabre. In their first book, the guys take a deep dive into history's most infamous serial killers, from Ted Bundy to John Wayne Gacy, exploring their origin stories, haunting habits, and perverse predilections. Featuring newly
