The 17th Gyalwang Karmapa presents a collection of teachings imparted to 16 American college student visitors to India

with whom he discussed a wide range of pressing world issues while offering counsel on living in harmony with others and the planet.

Advice and encouragement from a leading young spiritual teacher on how to live with compassion, ethical principles, and

bravery in the face of the global challenges facing humanity. In his first major book, the Karmapa, a charismatic 28-year-old emerging leader of Tibetan Buddhism, offers heartfelt advice on how to live with integrity in the modern world. These teachings arose from the questions of sixteen college seniors who spent a

month meeting and talking with the Karmapa about their concerns about the world and their own futures. "This is not a book about Buddhism. I don't want to talk about Buddhist theory or practice, but about our experience of life. The shared ground we all meet on is our shared concern about our lives and our world,

rather than philosophical views. On that ground, we can meet as friends."--from the Introduction Sixteen American college students spent a month in India with His Holiness the Seventeenth Karmapa.

Together, they discussed topics ranging from food justice to gender identities to sustainable compassion. The Karmapa's

teachings in this book are the product of those meetings. For those who wish to take up its challenge, this book can serve as a guide to being a friend to this planet and to all of us who share it. The Karmapa describes how to see the world as a global community, in which people are linked by their shared concerns for humanity--and

their wish to bring about real change.

While acknowledging the magnitude of this undertaking, the Karmapa shows us how to go about it, using the inner resources we have already.

If you are inspired to take up his challenge, the Karmapa offers a path for

participating in a global community that is based on compassion. In these chapters, he shares his vision for bringing social action into daily life, on a scale we can realistically manage through the choices we make every day—what to buy, what to eat, and how to relate honestly and bravely with our friends and family and

coworkers. His fresh and encouraging perspective shows us that we have the strength to live with kindness in the midst of the many challenges we face as socially and environmentally conscious beings. Because he sees the world through the lens of the interdependence of all beings, he sees that humans can change social and

environmental problems by changing their attitudes and actions. And so, he shows ways that we can change our world by changing ourselves—by examining our own habits of consumption and by being willing to look into how our food reaches our table and how the products we buy are made. In his chapter on gender, he points

out that we don't have to label others according to a social construct. If his viewpoint seems optimistic, it is—and it's also demanding. The Karmapa calls on us to open our mind and heart to the innumerable connections we share with others—in our families, communities, social systems, and on our planet. Thanks

From the depth of his spiritual training, and the breadth of his curiosity about the world and his love for it, he presents a relevant framework for understanding what it means to be human now—and why it's imperative that we concern ourselves with the well-being of all others. He points to a world we can create through our own

family, community, and shared humanity. As our planet changes and our world grows smaller, it is vital we not only recognize our connections to one another and to the earth but also begin actively working together as interdependent individuals to create a truly global society. The Karmapa, Ogyen Trinley Dorje, is

uniquely positioned to guide us in this process. Drawing on years of intensive Buddhist training and a passionate commitment to social issues, he teaches how we can move from a merely intellectual understanding to a fully lived experience of connection. By first seeing, then feeling, and finally living these

resources and can continue to better our society. In clear language, the Karmapa draws connections between such seemingly far-flung issues as consumer culture, loneliness, animal protection, and self-reliance. In the process, he helps us move beyond theory to practical and positive social and ethical change.
