Imperium. Across thousands of light-years, a vast armada of warships is heading for Earth to burn the homeworld down to its bedrock as the Swarm begins its genocidal campaign against the human race. No one—not the New Men, the Spacers, the Wahhabi Caliphate or Star Watch—has faced such staggering odds. Alone or united, it makes no difference. Captain Maddox has a last-ditch plan. He's returning to the null region of last voyage to grab the ancient Destroyers hidden there. But an immortal entity of evil cunning haunts the vessels. If it escapes its prison...Maddox will have made things infinitely worse. This time, mankind needs a miracle. THE LOST EARTH is the seventh book in the LOST STARSHIP SERIES.

Earth refugees threaten a peaceful space settlement in this influential novel from the Golden Age science fiction author of *2001: A Space Odyssey*. More than two thousand years in the future, a small human colony thrives on the ocean paradise of Thalassa—sent there centuries ago to continue the human race before Earth's destruction. Thalassa's resources are vast—and the human colony has lived a bucolic life there. But their existence is threatened when the spaceship Magellan arrives on their world—carrying one million refugees from Earth, fleeing the dying planet. Reputed to be Arthur C. Clarke's favorite novel, *The Songs of Distant Earth* addresses several fascinating scientific questions unresolved in their time—including the question of why so few neutrinos from the sun have been measured on Earth. In addition, Clarke presents an inventive depiction of the use of vacuum energy to power spacecraft—and the technical logistics of space travel near the speed of light.

“ Clarke's simple, musical style never falters in this sobering yet far from bleak commentary on humanity's longing for the stars. Highly recommended. ” —Library Journal

Last voyage, Captain Maddox entered a distant star system with a Swarm fleet. The sheer numbers were staggering, a 100-1 advantage against all human spacecraft. If the highly aggressive, racist insects gained hyper-spatial tube technology-allowing them to cross a thousand light-years in seconds-it would mean Armageddon for Earth. Star Watch desperately needs something powerful to offset the annihilating Swarm numbers. As if on cue, Professor Ludendorff declares he has discovered the whereabouts of ancient Builder technology, a tech so potent it could defeat the Swarm. Star Watch takes the bait, ordering Captain Maddox to find the lost planet holding the ancient technology. Ludendorff has a plan involving androids to lure his arch rival-Methuselah Man Strand-to his doom. The crew of Starship Victory knows nothing of this and thus blindly enters a web of intrigue and danger. The captain will need the AI Galyan, Valerie and Riker like never before. Humanity's hope against the coming Swarm holocaust rests on the outcome. THE LOST PLANET is the sixth book in the LOST STARSHIP SERIES.

Reproduction of the original: The Lost Gold of the Montezumas by William O. Stoddard

the A.I. Galyan, Meta, Sergeant Riker and the others can help their beleaguered captain, Victory is doomed and Earth will never learn of the terrible threat gathering in the stellar darkness. THE LOST PATROL is the fifth book in the LOST STARSHIP SERIES.

Star Watch defeated the Swarm Invasion Fleet, but at a terrible cost in destroyed star systems, smashed battleships and billions of dead. In the aftermath of the costly victory, chaos threatens as worlds leave the Commonwealth of Planets, face mass starvation or succumb to increased piracy. The war against the Swarm Imperium has just begun. Humanity needs unity or each planet will fall alone. Brigadier O'Hara of Star Watch Intelligence stumbles onto a secret conspiracy. Someone is trying to destroy the Commonwealth from within, and they have an alien artifact of incredible power. O'Hara summons Captain Maddox. Although she fears to lose him, she knows that Maddox and his crew have the best chance of finding the hidden enemy. If the captain fails, the Commonwealth will be powerless to stop its destruction. What O'Hara doesn't know-it would probably break her heart if she did-is that she has just sent Maddox into the most harrowing battle of his career. THE LOST ARTIFACT is the eighth book in the LOST STARSHIP SERIES.

planets...Starship Victory runs into a vast machine trapped inside an ion storm. Captain Maddox doesn't know it yet, but the meeting isn't an accident. There's a traitor aboard ship, implementing a secret plan, threatening to destroy everything Star Watch has achieved against the New Men. Now begins a deadly race against a hidden enemy. Captain Maddox, the crew and Galyan are pitted against the masters of a centuries-old conspiracy. Human existence lies in the balance. THE LOST DESTROYER is the third book in the LOST STARSHIP SERIES.

We barely recovered from the first Swarm invasion. Now, the bugs have become methodical, sending science fleets to study us. Back home, the Hive Masters are gathering hundreds of thousands of starships to hit us with an avalanche invasion. This time, not even exploding stars will stop them. The egocentric but brilliant Professor Ludendorff, who has a bitter grudge against Captain Maddox, claims he has a plan to outmaneuver the Swarm. But he's not going to tell Star Watch unless Brigadier Mary O'Hara--one of Maddox's closest friends--comes alone to listen in person. In desperation and knowing that Methuselah Man Ludendorff often has fantastic plans, O'Hara goes, and thus begins a chain-reaction of events that will embroil Maddox and the crew of Victory in a harrowing mission into the Great Beyond. They must risk everything at a Builder star gate if they hope to stave off the annihilating Swarm fleets from reaching Human Space and killing everyone. THE LOST STAR GATE is the ninth and longest book, so far, in the LOST STARSHIP SERIES.
