"A finalist for the Pulitzer Prize, Duong Van Mai Elliott's *The Sacred Willow* illuminates recent Vietnamese history by weaving together the stories of the lives of four generations of her family. Beginning with her great-grandfather, who rose from rural poverty to become an influential landowner, and continuing to the present, Mai Elliott traces her family's journey through an era of tumultuous change. She tells us of childhood hours in her grandmother's silk shop, and of hiding while French troops torched her village, watching while blossoms torn by fire from the trees flutter "like hundreds of butterflies" overhead. She makes clear the agonizing choices that split Vietnamese families: her eldest sister left her staunchly anti-communist home to join the Viet Minh, and spent months sleeping in jungle camps with her infant son, fearing air raids by day and tigers by night. And she follows several family members through the last, desperate hours of the fall of Saigon--including one nephew who tried to escape by grabbing the skid of a departing American helicopter. Based on family papers, dozens of interviews, and a wealth of other research, this is not only a memorable family saga but a record of how the Vietnamese themselves have experienced their times"--

This volume chronicles RAND's involvement in researching insurgency and counterinsurgency in Vietnam, Laos, and Thailand during the Vietnam War era and assesses the effect that this research had on U.S. officials and policies. Elliott draws on interviews with former RAND staff and the many studies that RAND produced on these topics to provide a narrative that captures the tenor of the times and conveys the attitudes and thinking of those involved.

Xuan Phuong - chemist, physician, journalist, filmmaker, touring service operator, and art gallery owner tells her story. A stunning psychological thriller about friendship, drugs, and murder from the author of *The Vanishing*. Egon Wagter and Axel van de Graaf met when they were both fourteen and on vacation in Belgium. Axel is fascinating, filled with an amoral energy by which the more prudent, less adventurous Egon is both mesmerized and repelled. Even as a teen, Axel has a strange power over those around him. He defies authority, seduces women, breaks the law. Axel chooses Egon as a friend, a friendship that somehow endures over time and ends up determining Egon's fate. During his university studies, Egon frequents Axel's house in Amsterdam, where there is a party every night and women fill the rooms. Though Egon chooses geology over Axel's life of avarice and drug dealing, he remains intrigued by his friend's conviction that the only law that counts is the law he makes himself. Egon believes that Axel is a demonic figure who tempts others only because he knows they want to be tempted. By the time he is in his forties, Egon finds himself divorced and with few professional prospects. He turns for help to Axel, who sends him to Ratanakiri, a fictional country in Southeast Asia. Axel gives Egon a suitcase to deliver—and Egon never returns. Utterly compelling and resonant, *The Cave* is an unforgettable story of betrayal in the spirit of Tim Krabbé's remarkable first novel, *The Vanishing*.

"Stunning....The portrait of the embattled and unyielding president that emerges is vivid and memorable."—Publishers Weekly By 1968, the United States had committed over 525,000 men to Vietnam and bombed virtually all military targets recommended by the joint Chiefs of Staff. Yet, the United States was no closer to securing its objectives than it had been prior to the Americanization of the war. The long-promised light at the end of the tunnel was a mirage. This absorbing account reveals the bankruptcy of the bombing campaign against North Vietnam, the failures of political reform in South Vietnam and the bitter bureaucratic conflicts between the US government and its military commanders.

A generation after the Khmer Rouge, Cambodia shows every sign of having overcome its history--the streets of Phnom Penh are paved; skyscrapers dot the skyline. But under this façade lies a country still haunted by its years of terror. Joel Brinkley won a Pulitzer Prize for his reporting in Cambodia on the fall of the Khmer Rouge regime that killed one quarter of the nation's population during its years in power. In 1992, the world came together to help pull the small nation out of the mire. Cambodia became a United Nations protectorate--the first and only time the UN tried something so ambitious. What did the new, democratically-elected government do with this unprecedented gift? In 2008 and 2009, Brinkley returned to Cambodia to find out. He discovered a population in the grip of a venal government. He learned that one-third to one-half of Cambodians who lived through the Khmer Rouge era have P.T.S.D.--and its afflictions are being passed to the next generation. His extensive close-up reporting in Cambodia's *Curse* illuminates the country, its people, and the deep historical roots of its modern-day behavior.

The personal narrative of a Sioux medicine man reveals his way of life, his role as a holy man among the Lakota, and his relationship with the whites. Reissue.
