A courageous call to free charity from its ideological and economic constraints

A courageous call to free charity from its ideological and economic constraints

Where other books on the nonprofit sector suggest ways to optimize performance inside the existing paradigm, *Uncharitable* suggests that the paradigm itself is the problem and calls into question our fundamental canons about charity. Author Dan Pallotta argues that society's nonprofit ethic acts as a strict regulatory mechanism on the natural economic law. It creates an economic apartheid that denies the nonprofit sector critical tools and permissions that the for-profit sector is allowed to use without restraint. These double standards place the nonprofit sector at extreme disadvantage on every level. While the for-profit sector is permitted to use all the tools of capitalism to advance the sale of consumer goods, the nonprofit sector is prohibited from using any of them to fight hunger or disease. --From publisher description.

A blueprint for a national leadership movement to transform the way the public thinks about giving. Virtually everything our society has been taught about charity is backwards. We deny the social sector the ability to grow because of our short-sighted demand that it send every short-term dollar into direct services. Yet if the sector cannot grow, it can never match the scale of our great social problems. In the face of this dilemma, the sector has remained silent, defenseless, and disorganized. In *Charity Case*, Pallotta proposes a visionary solution: a Charity Defense Council to re-educate the public and give charities the freedom they need to solve our most pressing social issues. Proposes concrete steps for how a national Charity Defense Council will transform the public understanding of the humanitarian sector, including: building an anti-defamation league and legal defense for the sector, creating a massive national ongoing ad campaign to upgrade public literacy about giving, and ultimately enacting a National Civil Rights Act for Charity and Social Enterprise. From Dan Pallotta, renowned builder of social movements and inventor of the multi-day charity event industry (including the AIDS Rides and Breast Cancer 3-Days) that has cumulatively raised over \$1.1 billion for critical social causes. The hotly-anticipated follow-up to Pallotta's groundbreaking book *Uncharitable*. Grounded in Pallotta's clear vision and deep social sector experience, *Charity Case* is a fascinating wake-up call for fixing the culture that thwarts our charities' ability to change the world.

Vast and largely unexamined, the world of American charities accounts for fully 10 percent of economic activity in this country, yet operates with little accountability, no real barriers to entry, and a

Stunning lack of evidence of effectiveness. In *With Charity for All*, Ken Stern reveals a problem hidden in plain sight and prescribes a whole new way for Americans to make a difference. Each year, two thirds of American households donate to charities, with charitable revenues exceeding one trillion dollars. Yet while the mutual fund industry employs more than 150,000 people to rate and evaluate for-profit companies, nothing remotely comparable exists to monitor the nonprofit world. Instead, each individual is on his or her own, writing checks for a cause and going on faith. Ken Stern, former head of NPR and a long-time nonprofit executive, set out to investigate the vast world of U.S. charities and discovered a sector hobbled by deep structural flaws. Unlike private corporations that respond to market signals and go out of business when they fail, nonprofit organizations have a very low barrier to entry (the IRS approves 99.5 percent of applications) and once established rarely die. From water charities aimed at improving life in Africa to drug education programs run by police officers in thousands of U.S. schools, and including American charitable icons such as the Red Cross, Stern tells devastating stories of organizations that raise and spend millions of dollars without ever cracking the problems they set out to solve. But he also discovered some good news: a growing movement toward accountability and effectiveness in the nonprofit world. *With Charity for All* is compulsively readable, driven in its early pages by the plight of millions of Americans donating to good causes to no good end, and in its last chapters by an inspiring prescription for individual giving and widespread reform.

A guide to making an impact in the world through smart philanthropy.

The four snakes in the Garden of Eden are cynicism, lack of commitment, major obstacles, and the desire to quit, according to motivational expert Dan Pallotta, a man who is living his dreams. He now shows readers how to receive their destiny and turn their hard work into smart work.

Grabbing the low-hanging fruit is no longer acceptable. ZICO Coconut Water founder Mark Rampolla argues that when you choose to reach higher, you can build an incredible business, be profitable, and maybe even change the world. In 2004, Mark Rampolla was successful by most standards. There was just one problem: He wasn't inspired in his job and believed he had something more to contribute to the world. When he asked himself, "What do I have to offer that will improve the world?" Rampolla realized that his big idea was hanging right overhead. From his time living in Central America, he and his family came to love drinking coconut water, just like the locals. But no one was really selling coconut water in the United States. So Rampolla chased a very ambitious goal: introducing coconut water to the American beverage market dominated by a few big players. He wasn't just starting a business; he was creating a whole new industry. ZICO Coconut Water brought a healthy beverage alternative to American consumers while

Also helping developing-world growers and suppliers profit from this resource. It was a win-win-win-good for Rampolla, his customers, and the world. So good, in fact, that in 2013 the Coca-Cola Company purchased ZICO and is scaling the brand around the globe. Rampolla wrote High-Hanging Fruit for others who want to succeed because of, not in spite of, their values. This book is for people who believe that it's their duty to reach higher than just the bottom line to build businesses driven by passion, purpose, and integrity. Above all, it's a call to arms for a new generation of entrepreneurs who want to disrupt the old model and do good by doing business.
