This edited collection examines how geography and space, two key constructs of communication, affect the public understanding of religion.

This book arises from a symposium held in Oxford to consider the most fruitful trajectories of rhetoric in the 21st century. The gathering comprised an international delegation of leading scholars convened to assess—from an array of perspectives — the various possible futures of the ancient discipline of rhetoric as it responds vitally to the evolving contexts of the new millennium. This collection commemorates that event by extending its scrutiny into a number of specific fields of inquiry. It includes a foreword by Prof James J. Murphy, an introductory article by the editors, and six further articles commissioned from among the participants. The introduction provides a detailed account of the symposium, and foregrounds the delegates ' articles with a é sum é of their arguments and consequent relevance to the overarching theme. Each contribution is a freshly minted and original piece of scholarship, true to the generative and interactive spirit of the enterprise, and speaking pertinently to the field of international rhetoric studies at the present time. Rhetoric in the Twenty-First Century addresses a spectrum of concerns. Scholars and students of rhetoric and language-use will naturally find much of interest here, and the inclusive ambit of the work will also appeal to students of ethics, religion, comparative literature, intercultural studies, and the growing field of communication studies.

"A sparkling debut."--Emily Giffin, #1 New York Times Bestselling Author From a compelling new voice in women's fiction comes a mother-daughter story about three generations of women who struggle to define themselves as they pursue their dreams. Simran Mehta has always felt harshly judged by her mother, Nandini, especially when it comes to her little "writing hobby." But when a charismatic and highly respected journalist careens into Simran's life, she begins to question not only her future as a psychologist, but her engagement to her high school sweetheart. Nandini Mehta has strived to create an easy life for her children in America. From dealing with her husband's demanding family to the casual racism of her patients, everything Nandini has endured has been for her children's sake. It isn't until an old colleague makes her a life-changing offer that Nandini realizes she's spent so much time focusing on being the Perfect Indian Woman, she's let herself slip away. Mimi Kadakia failed her daughter, Nandini, in ways she'll never be able to fix---or forget. But with her granddaughter, she has the chance to be supportive and offer help when it's needed. As life begins to pull Nandini and Simran apart, Mimi is determined to be the bridge that keeps them connected, even as she carries her own secret burden.

The quest for discovery through looking is the driving force of Bridget Riley ' s work, as she has written: " More than anything else I want my paintings to exist on their own terms. That is to say they must stealthily engage and disarm you. There the paintings hang, deceptively simple—telling no tales as it were—resisting, in a well-behaved way, all attempts to be questioned, probed or stared at and then, for those with open eyes, serenely disclosing some intimations of the splendors to which pure sight alone has the key. " This publication unfolds along the lines of Riley ' s 2018 exhibition at David Zwirner, London. Beginning with an exploration of black-and-white equilateral triangles, Riley leads the viewer into an awareness of the ways in which a surface—wall or canvas—can affect a seemingly simple form: the triangle. While she demonstrates these subtle changes, Riley manipulates this form by bending its sides. At first sight the viewer may experience this as a breaking apart, but as one continues to look, serpentine movements appear, or large shadowy triangles, which advance and recede. These paintings constantly reinvent themselves through looking. Riley is revisiting and developing works which she initiated over fifty years ago, as is shown here by the inclusion of Black to White Discs (1962/1965) in the exhibition. This diamond formation of discs, which graduates in tone from white to black and back again, offers a lead-in to her new body of work. In Cosmos and the Measure for Measure series, Riley recalls a group of subtly shaded colors used this time in discs. While the compositions remain fundamentally the same, the play of colors changes every time. The exhibition ends with a surprisingly spacious wall painting that offers the viewer many delights, not least among them a dance of fugitive white lights. Here, Riley disarms the viewer, encouraging us once again in an adventure of discovery. In his essay, Richard Shiff explores Riley ' s ability to give new life to basic forms as she invites the audience, any audience, to help participate in the painting.

"Compared to other avant-garde movements that emerged in the 1960s, conceptual art has received relatively little serious attention by art historians and critics of the past twenty-five years - in part because of the difficult, intellectual nature of the art." "This anthology collects for the first time the key historical documents that helped give definition and purpose to the movement. It also contains more recent memoirs by participants, as well as critical histories of the period by some of today's leading artists and art historians. A good portion of the exchange between artists, critics, and theorists took place in difficult-to-find limited-edition catalogs, small journals, and private correspondence. These influential documents are gathered here for the first time, along with a number of previously unpublished essays and interviews."--Contraclubiarta.

During the 1960s and 1970s, magazines became an important new site of artistic practice, functioning as an alternative exhibition space for the dematerialized practices of conceptual art. Allen looks at the most important of these magazines in their heyday and compiles an illustrated directory of hundreds of others.
