This textbook is the new edition of Furnell's famous Transcultural Health Care, based on the Furnell twelve-step model and theory of cultural competence. This textbook, an extended version of the recently published Handbook, focuses on specific populations and provides the most recent research and evidence in the field. This new updated edition discusses individual competences and evidence-based practices as well as international standards, organizational cultural competence, and perspectives on health care in a global context. The individual chapters present selected populations, offering a balance of collectivistic and individualistic cultures. Featuring a uniquely comprehensive assessment guide, it is the only book that provides a complete profile of a population group across clinical practice settings. Further, it includes a personal understanding of the traditions and customs of society, offering all health professionals a unique perspective on the implications for patient care.

This concise book provides information on every vital area important to professionalism: documentation, law and ethics, and leadership all in the context of the five roles of the physical therapist as defined by the APTA's Guide to Physical Therapist Practice, 2nd Edition. Readers will find information on the history of professionalism in physical therapy, the five roles of the physical therapist (Patient/Client Manager, Consultant, Critical Inquirer, Educator, and Administrator), the role of the physical therapist in today's health care system, and professional leadership and development. Case studies, how to lists and tips from the field encourage critical thinking and provide strategies for various issues. (Midwest).
